Dear Capri Maddox head of the Dept of Civil + Human Rights, ex Pub Works & ex advisor to city atty , why do you donate to cedillos campaign. you are a public official appointed to represent and defend the exact people your recipient is harming. you are complicit in the violence and neglect of our community . the money you gave to recipient is fuel to kill our community, to violate their civil and basic human rights. and destroy families. most of all erode democracy which is why nobody votes. and people like cedillo harvest ballots. and take developer money under citys watch. while people die. moms and dads of our community washing babies in rubbermaid containers on san fernando rd. RVs getting towed in the shadow of a luxury condo on the block they grew up on. kids dying of fentanyl on the curb on ave 21 after fam evicted. in our neighborhood of 77 % renters. The oldest neighborhood in LA. left to rot with overflowing sewage and 25 streetlights out for a year. making way for new condos. Look at what you are doing . Wake up. one day there will be no more appointees. everyone will be elected . your money toward his campaign has cost you your credibility. you should think about what you did making equity a joke. if you don't condemn corruption you condone it and are complicit.
