Council File No: 21-0829-S1

Comments for Public Posting: I urge you to NOT to approve the Venice Median multi-use project that is being pushed by Councilman Mike Bonin. You are being mislead to approve a completely flawed, overpriced project that will not help anyone but the those who will reap tax payer money for its construction and then "management" fees. How can you approve a project that has not gone through all of the steps necessary for proper permitted? There are so many reasons why this project is all wrong for this area. No one is trying to stop help for the less fortunate and for affordable housing, but this project must be rethought. PLEASE do not rush this project through to appease a lame duck Councilman. Please listen to those of us who have studied and live by this area.
