**Comments for Public Posting:** I am writing to object to Mike Bonin's Monster on the Meridian. Bonin is trying to cement his "legacy" before he leaves office. He's going at it in a stealthy and dishonest way, as he's done everything for the last five years. This project is a bloated, ill-advised monstrosity which will forever change Venice and it's iconic canals, and will provide very few units of housing at an astronomical price. His Housing First approach to the homeless situation has caused him to ignore more sensible solutions, while putting himself front and center in the issue. I have been a resident of Venice for 28 years and have seen terrible changes in our community since Bonin took office. His transitional housing experiment at Sunset & Main has increased crime and has had very limited success in taking people off the street and getting them into permanent housing. The projected cost per unit of housing at the Monster on the Meridian is now well over \$1 million, a ridiculous amount when so much more could be done for homeless services. I don't care what Bonin wants. He's out, by his own desire. Now he wants to wield his power from beyond his position. I don't care how the Council FEELS about Mike Bonin. I don't care how the Council FEELS about the homeless issue. I am appealing to your rational minds and your duty to Venice, and the logic of giving the new CD11 councilperson the final say in what happens here. Please do not sell Venice down the river. Thank you. Karen Jones Venice
