Comments for Public Posting: I'm concerned of the traffic with these truckers,double park many times when trying to get to work in Am and Pm.!Safety for children and seniors!and our health!so much pollution from truckers!take the truckers to a storage lot we're you have open space away from residential cities!It's sad to see Wilmington looking like a kick yard filled with containers along with trash everywhere on the streets!Ive lived here all my life this is the worst I have witness in my city!Ty

Comments for Public Posting: I am asking you to please put a hold on truck/container storage yards in the community of Wilmington. I work as a teacher in one of our Wilmington schools and I live in San Pedro. For the past 2 years I have seen a sharp increase in the number of trucks/Chassis/ and containers being dumped all over the streets in Wilmington closest to the port. The land waste and the air pollution as a result is not being addressed. The Wilmington community needs time to develop their voice to address what they need in their community. Thank you

Comments for Public Posting: Why is nothing being done for trucks and containers blocking public streets on McFarland & Anaheim ? Cutting off access to the public. Also, they expanded their lot and it's not zoned for Industrial. We just had McFarland paved not that long ago and that strip is now ruined. Hold them liable for damages.

Comments for Public Posting: The residents of the community of Wilmington deserve to live with less trucking traffic, noise, and pollution! This is temporary ordinance but this should be the beginning of improving the quality of life of the residents of Wilmington!

Comments for Public Posting: Se debe de hacer entender a los dueños de los camiones y contenedores, que la comunidad de Wilmington no es un estacionamiento público. Y que ponen en constante peligro a los residentes. Ya es mucho aguantarlos que transiten por las calles, Y a los encargados de hacer cumplir los reglamentos en cuanto esté tema, no la piensen mucho hacer todo lo posible .por no permitir más más permisos de lugares para estacionar camiones y contenedores. y mucho menos utilicen nuestras calles para estacionar
