Council File No: 18-0510-S2

Comments for Public Posting: As a long term property owner located across the stree from the Bridge transient camp my family and I have had nothing but problems with assaults, vandalism, open drug use, campers and motorhomes parked in front of my residence, fires, covid outbreaks, unsanitary conditions among other crimes perpetrated by the encampments that surround me. The chief cause is the permissive city council that has taken away our safety. My family and I have worked hard and earned our right to live here. But because of the lack of policing and lack of comunicatoion with these encampments by Path and Spy, little has been acomplished. It is not safe at any time. Path and Spy have enabled more, not less, illegal transient behavior. The sidewalks are unusable and filthy. The transit property should not be tied up any further. This is a land grab that has a failed history and continues to be supported by bad politics, bad judgement, and ineffective management. We need the property used in a constructive way that will enhance our community, not destroy it. I urge you to cancel the lease for the sake of residents, businesses and visitors. It has been too long already.
