Comments for Public Posting: I am against allowing encampments within 500 feet of schools or day care centers as a matter of health and safety for our families and children throughout Los Angeles. Designated areas need to be determined where sanitation, security, food and medical care should be afforded to the homeless but no where near the areas that are sensitive to the environment or the public who have a right to traverse sidewalks and streets without fear of violence, criminal behavior, or impediments to access public services. We, the tax paying, housed, law abiding residents of Los Angeles should not have our rights diminished by the Council or Mayor in favor of the homeless.
