Comments for Public Posting: This 'temporary' moratorium has gone on long enough and has made a mockery of our great City and County. It is not my job, a private citizen, to babysit and provide welfare for a tenant that is taking advantage of protections meant for the most vulnerable. In fact I should be granted rights to do a citizen's arrest for what this scumbag human-being is doing to my family. This awful person deserves to be homeless for being so arrogant about the protections meant for somebody in actual need. The government needs to stop coddling these tenants as though they are children, as they are more sophisticated and cunning than what the media and tenant rights group projects them to be. This is an absolute shame the trauma and humiliation the County and City have brought to my family for taking their guidance and only to be punished and be harassed by the scumbag tenant. The City Council should seriously consider passing an anti-landlord (for small mom & pop providers) harassment ordinance to not incentivize these scumbag Professional Tenants.
