**Comments for Public Posting:** Good Luck trying to sucker us taxpayers into paying more of our money. Future behavior is predicated on past behavior and you all do not have a good track record of responsibly using our tax money. How much are you going to spend on woke policies that do not benefit the majority of your taxpayers? Had you not allowed the homeless to take over the parks, we wouldn't need more funding to now clean up their mess. Right now, 1200 sq ft homes are selling for over 1 Million dollars; do you really think that \$5Mil is only for the Hollywood elites?
