Comments for Public Posting: I strongly support CF 20-0187. Bus priority infrastructure is especially important to increase travel speeds, ridership, and sustainability.

Council File No: 20-0187

Comments for Public Posting: I'd like to express my support for the motion (council file 20-0187) that was approved by the city council transportation committee on February 26th. I frequently take the bus and ride my bike to get around the city, and recognize that the city is in dire need of more dedicated bus and bike lanes to make these modes of transit more viable—and to meet the city's climate goals. This motion, if adopted, would do a lot to speed up the implementation of sorely needed transit and active infrastructure in L.A. I urge the council to support this motion when it comes up for a vote.
