Council File No: 20-0187

Comments for Public Posting: I am writing to support council file 20-0187. This council motion aims to increase LA's network of bus priority and active transportation infrastructure and increase bus travel speeds, especially in high-need corridors identified by the Community Equity & Health Index. These things are urgently needed to address our increasing traffic congestion, worsening air quality, and need to stop the devastating effects of climate change.
