

**REPORT FROM**

## **OFFICE OF THE CITY ADMINISTRATIVE OFFICER**

---

Date: August 11, 2022

CAO File No. 0220-05912-0004  
Council File No. 21-1015  
Council District: All

To: Budget and Finance Committee  
Public Works Committee  
Transportation Committee

From: Matthew W. Szabo, City Administrative Officer

Subject: **FEDERAL AND STATE GRANT APPLICATIONS: APPROVAL REQUESTS AND STATUS REPORT**

---

### **RECOMMENDATIONS**

That the City Council, subject to approval of the Mayor:

1. Authorize, in certain cases retroactively, the Board of Recreation and Parks, General Managers for the Bureaus of Engineering and Department of Transportation, and/or their designees, to prepare the grant applications for the proposals as outlined in Attachments 1 and 2;
2. Instruct the respective General Managers of departments or designees that are awarded grants to report back to request authority to accept the grant award and confirm that there is no additional General Fund fiscal impact; and,
3. Authorize the respective General Managers of departments or designees that are awarded Community Project Funding as outlined in Attachment 3 to:
  - a. Negotiate and execute a grant agreement with the US Department of Housing and Urban Development and submit all requested documentation; and,
  - b. Establish a separate interest-bearing fund and accept and disburse the grant funds in the amounts specified in Attachment 3.

## **SUMMARY**

Our Office is transmitting for your consideration a second status update on the Infrastructure Investment and Jobs Act (IIJA) and state grants for which City departments have reported an interest in applying (Attachments 1 and 2). In addition, this report also addresses Community Project Funding (CPF) awards included in the Consolidated Appropriations Act, 2022 that are administered by the Department of Housing and Urban Development (Attachment 3).

Grant applications for the Active Transportation Grant Program (ATP) previously reported to Council (C.F. 14-0499-S6), are listed in Attachment 2 in order to consolidate information as part of this reporting series. Although the ATP does not have a local match requirement, a local match was proposed to increase the competitiveness of the grant applications.

The Safe Streets for All Notice of Funding Availability (NOFA) requires that each eligible applicant submit only one application. DOT evaluated all eligible City projects and determined that the most competitive project is the La Brea Complete Streets project based on project readiness, safety impact, and sustainability factors. The CAO concurs with this finding. Should this grant application be funded, up to \$2.25 million in local match funds would still have to be identified.

In accordance with Los Angeles Administrative Code (LAAC) Section 14.6, departments may submit applications without Mayor and Council approval if no City General Funds, matching funds, or other commitments of City resources are required. Prior Mayor and Council approval may also be waived when the NOFA is published less than 61 days in advance of the date of application. However, all departments require Mayor and Council approval before accepting and receiving a grant award. Therefore, authority is recommended for departments to submit grant applications for the proposed projects included in the report Attachments. It is further recommended that departments report to the Mayor and Council upon award notification in order to request authority to accept and receive the grant award and confirm that there is no additional General Fund impact.

## **FISCAL IMPACT STATEMENT**

Approval of the report recommendations will not result in a General Fund impact. However, upon notification of grant award, a reassessment of any potential impact on the General Fund should be completed as it relates to lower than requested grant award amounts, verification and identification of local match requirements, and front-funding needs for grants funded on a reimbursement basis.

## **FINANCIAL POLICIES STATEMENT**

The recommendations in this report comply with the City's Financial Policies.

## ATTACHMENT 1 - GRANT PROGRAMS WITH MATCH REQUIREMENT

### Bridge Investment Program

#### Department of Transportation (F)

NOFA Release Date: June 10, 2022 (45 days from due date)

Due: July 25, 2022
