Comments for Public Posting: Hi - As an LA resident who would like to see better public health outcomes and initiatives that prioritize human and ecological health and wellbeing, I am writing to oppose any projects that give away the public open space at Maltman Ave. and Effie St. to private developers. I'm concerned about the way things have "always been done," and I believe there are alternatives to engage in development in this overdeveloped concrete city - for example repurposing abandoned buildings and other ideas to create win-win solutions. I urge you not to privatize our public space. Thank you for your time and consideration.

Comments for Public Posting: I oppose the giveaway of the public open space at Maltman Avenue and Effie Street to private developers through a permanent street vacation process. I live down the street and would like to keep this public space.
