Comments for Public Posting: Why is the city of Los Angeles still in a state of emergency while the rest of California is not? If a landlord is homeless would that landlord be able to occupy their property thru a no fault eviction? If a tenant makes more money than the landlord would a landlord be able to do a no fault eviction? Is a landlord as a Sr. Citizen, which has protections as a "protected class" under CA and Federal regulatory guidelines, able to perform a no fault eviction?

Comments for Public Posting: CDC Director Dr. Rochelle Walensky has admitted a "dramatic mistake" and "resetting" the agency's reaction to Covid-19. Dr. Walensky further admits that "We need to recognize that in our big moment, our performance didn't reliably meet the expectations of this country, and that's exactly why I called for this 'reset,' why I called for this review. The CDC admits that it made pretty public (faulty) mistakes from testing to data to communications. (Aug 23, 2022) The Biden Administration has ended its Covid-19 Testing Aimed at Unvaccinated Workers (Aug 17, 2022). The state of CA on its webpage (covid19.ca.gov) shows Masks are no longer required indoors in California, with a few expectations, as of April 22, 2022. There is no longer a "State of Emergency." Meeting in person DOES NOT present greater imminent risks to the health or safety of attendees because of the continuing state of emergency. Those exposed to the virus are no longer required to quarantine. Unvaccinated people now have the same guidance vaccinated people. Students can stay in class after being exposed to the virus. It's no longer recommended to screen those without symptoms. (Aug 11, 2022) Social distancing and masking have been removed as a safety measure by the CDC. Findings to Continue Teleconference Meetings Pursuant to AB 361 and Related Actions are simply no longer necessary they never were. In person council meetings have occurred for a couple of months now without any issues. City workers have worked throughout the pandemic in person without proper PPE. Enough with the tyranny, enough with the mandates, return all city workers to work, allow residents to return to normal life and be involved in their government. End the state of emergency and all mandates now.

Comments for Public Posting: good morning city council, I understand you are hard at work having--AGAIN--promised someone somewhere that you will have a date for the end of Our Hell as small landlords forced to help you with YOUR job of providing affordable housing for those in need and help for the homeless. So, no luck so far and an out-of-date SOE that even Gavin can't figure how to end in a politically correct way as he wants to run for president. So here is the question: IF it ends in 2022, and the sooner the better as none of us has received a surprise inheritance to help us with expenses of free or reduced housing, or in my personal case, access to my property which desperately needs maintenance, but my immovable tenants are allergic to everything, apparently even having their own life, so I am minute by minute losing value....and health but who cares except me and my doctors. BUT never mind, as long as I can be of service before we turn our job of housing the needy over to hotels. As I was saying 2022 end will end it, right???? PLEASE BE CLEAR. But 2023 will be up in the air dependent on new Mayor that will let you off the hook. Rick wants it over and tenant accountability while Karen wants an extension which will lead us into total bankruptcy and ruin. How that is progressive is not clear but whatever. And you differentiating between BIG landlords and SMALL landlords forever stays in the zone of indecision. Looking forward to how you are going to solve this which you are a year and a half behind on doing. Are you headed for THREE years?

Comments for Public Posting: Original motion, June 24, 2022 to have LAHD report back in 30 days with a report. We are now 30 days overdue (or rather day 60 since motioned) for the report. It disconcerting how the City can abide by their 'laws' only whenever it is convenient for them. All while putting the burden on this world-wide 'covid' issue on the backs of small mom & pop landlords. Like how come small landlords do not get to slip 30 days for their mortgages, property taxes, and repair requests? The CDC has given the City Council the perfect excuse as they essentially declared we are in an endemic state. Stop stalling and do what is right and stop punishing small landlords

Comments for Public Posting: no extension of declaration of local emergency due to covid shall be done. It is Over 30 months since Covid-19 and remember it is called "19" and we are in "22" year broke since then vaccines have become available, four shots are available, test are available no more restrictions on travel, no more mask mandates, no more quarantine. Whats the new CDC guidelines for COVID-19 quarantine? The CDC no longer recommends those who have been exposed to COVID-19 to quarantine for 10 days; instead, they are recommended to mask for 10 days, get tested five days after exposure, and to monitor for symptoms of infection such as fever, cough, shortness of breath, or other COVID-19 symptoms. Many good things had happen since March 2020 so there is not need to extend the local emergency declaration. City of Los Angeles is back on business, every one has returned to work, unemployment rate is low as prior pandemic, you guys are organizing social gathering events for the public without restrictions of covid guidelines. So why trying to create something that it is no longer there. NO MORE EXTENSION OF LOCAL EMERGENCY BECAUSE IT DOESN'T EXIST AND STOP WITH YOUR SOCIALISM BECAUSE YOU ARE RUINING THIS BEAUTIFUL CITY OF LOS ANGELES
