**Comments for Public Posting:** good morning city council, I understand you are hard at work having--AGAIN--promised someone somewhere that you will have a date for the end of Our Hell as small landlords forced to help you with YOUR job of providing affordable housing for those in need and help for the homeless. So, no luck so far and an out-of-date SOE that even Gavin can't figure how to end in a politically correct way as he wants to run for president. So here is the question: IF it ends in 2022, and the sooner the better as none of us has received a surprise inheritance to help us with expenses of free or reduced housing, or in my personal case, access to my property which desperately needs maintenance, but my immovable tenants are allergic to everything, apparently even having their own life, so I am minute by minute losing value....and health but who cares except me and my doctors. BUT never mind, as long as I can be of service before we turn our job of housing the needy over to hotels. As I was saying 2022 end will end it, right???? PLEASE BE CLEAR. But 2023 will be up in the air dependent on new Mayor that will let you off the hook. Rick wants it over and tenant accountability while Karen wants an extension which will lead us into total bankruptcy and ruin. How that is progressive is not clear but whatever. And you differentiating between BIG landlords and SMALL landlords forever stays in the zone of indecision. Looking forward to how you are going to solve this which you are a year and a half behind on doing. Are you headed for THREE years?

**Comments for Public Posting:** Original motion, June 24, 2022 to have LAHD report back in 30 days with a report. We are now 30 days overdue (or rather day 60 since motioned) for the report. It disconcerting how the City can abide by their 'laws' only whenever it is convenient for them. All while putting the burden on this world-wide 'covid' issue on the backs of small mom & pop landlords. Like how come small landlords do not get to slip 30 days for their mortgages, property taxes, and repair requests? The CDC has given the City Council the perfect excuse as they essentially declared we are in an endemic state. Stop stalling and do what is right and stop punishing small landlords
