Subject: Public Comments on CF 20-1536 and CF 20-1536-S2
Dear Mr. Espinosa,

RE: CF 20-1536 and 20-1536-S2

I write to urge you to vote against the proposed STAP contract with Tranzito-Vector, LLC currently under consideration.

I urge you to vote against adopting the CEQA findings as conveyed by the Board of Public Works.

I urge you to vote against the IS/MND as presented.

I urge you to vote against the Mitigation Monitoring Program prepared for the IS/MND as attached to the BPW report of May 11, 2022.

I urge you to seek additional financial analysis of the Program's projected costs and revenues, the comparison of final bidders and the programs offered.

I urge you to request the City Attorney to comment on impacts that the proposed program may have on the City's ability to regulate off-site signage (including billboards) within the framework of past court rulings.

I urge you to request the Dept. of Transportation to review current studies related to driver distraction and changing digital billboards.

I urge you to release a red-line version of the contract showing changes made by the CAO's office.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods and public rights of way while failing to provide transit riders with adequate shade and shelter across our vast metropolitan area. The total number of proposed shelters will cover LESS THAN HALF of today's transit stops. Providing 75% of riders in each council district with a proposed shelter does not mean that the riders most in need will be provided shelter.

A final note: Under the current contract Councilmember offices all get an equal share of 50% of the revenues from the Street Furniture contract for a council district discretionary fund account. Where will any revenues go from the new program?

Thank you for your attention and consideration.

Sincerely,
A.L. Watts

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods and public rights of way while failing to provide transit riders with adequate shade and shelter across our vast metropolitan area. The total number of proposed shelters will cover LESS THAN HALF of today's transit stops. Providing 75% of riders in each council district with a proposed shelter does not mean that the riders most in need will be provided shelter.

On a personal note, I have found that the people making the decisions and approving these initiatives have had little to no experience with relying on the transit in LA for their survival/commute/etc. The quality of life that has been surrounding and stigmatized with using transit in LA over the last 30 years has been a similar little to no priority by the city's planners and decision-makers, and this action further evidences this mentality. Even as a sprawling metropolis, LA can be enjoyed in relative ease and peace when supported by apropos and kind-intentioned infrastructure.

A final note: Under the current contract Councilmember offices all get an equal share of 50% of the revenues from the Street Furniture contract for a council district discretionary fund account. Where will any revenues go from the new program?

Thank you for your attention and consideration.

Sincerely,
Scott Kriloff

Light pollution is a serious issue and these billboards will be distracting to drivers, interrupt natural sleep patterns, as well as interfere with the life cycle of wildlife including insects.

Thank you for your attention and consideration.

Sincerely,
Aida Ashouri

I urge you to vote against adopting the CEQA findings as conveyed by the Board of Public Works.

I urge you to vote against the IS/MND as presented.

I urge you to vote against the Mitigation Monitoring Program prepared for the IS/MND as attached to the BPW report of May 11, 2022.

I urge you to seek additional financial analysis of the Program's projected costs and revenues, the comparison of final bidders and the programs offered.

I urge you to request the City Attorney to comment on impacts that the proposed program may have on the City's ability to regulate off-site signage (including billboards) within the framework of past court rulings.

I urge you to request the Dept. of Transportation to review current studies related to driver distraction and changing digital billboards.

I urge you to release a red-line version of the contract showing changes made by the CAO's office.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods and public rights of way while failing to provide transit riders with adequate shade and shelter across our vast metropolitan area. The total number of proposed shelters will cover LESS THAN HALF of today's transit stops. Providing 75% of riders in each council district with a proposed shelter does not mean that the riders most in need will be provided shelter.

A final note: Under the current contract Councilmember offices all get an equal share of 50% of the revenues from the Street Furniture contract for a council district discretionary fund account. Where will any revenues go from the new program?

Thank you for your attention and consideration.

Sincerely,
Charles B.

Subject: Public Comments on CF 20-1536 and CF 20-1536-S2
Dear Mr. Espinosa,

RE: CF 20-1536 and 20-1536-S2

I write to urge you to vote against the proposed STAP contract with Tranzito-Vector, LLC currently under consideration.

I urge you to vote against adopting the CEQA findings as conveyed by the Board of Public Works.

I urge you to vote against the IS/MND as presented.

I urge you to vote against the Mitigation Monitoring Program prepared for the IS/MND as attached to the BPW report of May 11, 2022.

I urge you to seek additional financial analysis of the Program's projected costs and revenues, the comparison of final bidders and the programs offered.

I urge you to request the City Attorney to comment on impacts that the proposed program may have on the City's ability to regulate off-site signage (including billboards) within the framework of past court rulings.

I urge you to request the Dept. of Transportation to review current studies related to driver distraction and changing digital billboards.

I urge you to release a red-line version of the contract showing changes made by the CAO's office.

The STAP Program will introduce more unwanted and unsafe digital signage to LA neighborhoods and public rights of way while failing to provide transit riders with adequate shade and shelter across our vast metropolitan area. The total number of proposed shelters will cover LESS THAN HALF of today's transit stops. Providing 75% of riders in each council district with a proposed shelter does not mean that the riders most in need will be provided shelter.

A final note: Under the current contract Councilmember offices all get an equal share of 50% of the revenues from the Street Furniture contract for a council district discretionary fund account. Where will any revenues go from the new program?

Thank you for your attention and consideration.

Sincerely,
Suzane Gordon
