Council to terminate and revoke the retail use of Habibi Cafe. I support this request.

According to City reports, at this site, there have been reports of homicides, armed robberies, assaults, and repeated citations for selling alcohol without an ABC License and operating as an unlicensed after-hours nightclub without any permits, among other violations.

It's time to hold businesses accountable. Please join me in demanding that the City take action to keep our neighborhoods in #CD5 safe.

**lisachapmangabriel66**

@sharia.la.faber it does serve alcohol without a license, it does have hookah and you may not have hookah in a restaurant that serves food. Go and read their yelp reviews, people talk about the alcohol and hookah constantly. They also mention the belly dancers. There have been two shootings in Westwood over the last 25 years....both of them involving patrons from Habibi, and both right in front of their restaurant. You do the math. There have been complaints, robberies, and undercover investigations. Talk about something you know something about like thigh boots and selfies. Cuz you sure don't know the story on this!

5h Reply Send

**sharia.la.faber**

@lisachapmangabriel66 lol what's wrong with thigh high boots and my selfies you can serve hookah in a restaurant in Los Angeles. You just don't know anything about business. Go home #karen we live in a new age. Trust me I do know what I'm talking about. If you knew anything about the public hearing you would know who I am. Peace

LAPD: Restaurant burglaries on the rise

BY [LYDIA PANTAZES](#) | LOS ANGELES

PUBLISHED 7:37 AM PT JUN. 17, 2022

LOS ANGELES — According to the Los Angeles Police Department, restaurant burglaries are up 121% year to date.

Pedro Mojarro, owner of D Town Burger Bar, has been the victim of two break-ins and vandalism.

Councilman Kevin DeLeón said that to keep these crimes from happening, he's allocated a total of \$3.5 million to go toward overtime to increase police presence and deter crimes in his district.

In particular, burglaries at restaurants have been increasing, going from 31 incidents in February to 41 in April. Burglaries accounted for 20% of all crime reported at Los Angeles restaurants from Feb. 1-April 30.

Although most restaurants in Los Angeles were forced to halt in-person service for much of 2020, burglaries never ceased, perhaps reflecting opportunistic thieves who took advantage of the lack of customers. In January 2020 there were 43 restaurant burglaries, followed by 30 the next month and 48 in March. There were 49 burglaries in April, the first full month of the shutdown, and at least 34 every month during the rest of the year.

Burglaries at Los Angeles restaurants, Jan.-

April, 2021 vs. 2020

Restaurant owners across Los Angeles are embracing the return of customers and are eagerly anticipating the full reopening of the California economy, scheduled for June 15. But some operators have already seen an unwanted sign of people leaving their homes: burglary, vandalism and other crimes.

There were 187 crimes at restaurants reported to police in April, up from 160 in March and 142 in February, **according to Los Angeles Police Department data.**

Figures from January-March are far lower than they were in the same time in 2020, which is not surprising considering that most establishments were operating until the middle of last March. Overall crime in Los Angeles from Jan. 1-April 30 this year is 5.5% below the same period in 2020.

Crime reports at Los Angeles restaurants, Jan.-April, 2021 vs. 2020

samyebri Public safety means more than just police officers and crime. It also means ensuring that businesses follow the law and keep patrons and neighborhoods safe.

Habibi Cafe in Westwood Village has a decades-long history of failing to do so. Now, on Sept 6, the City Council will consider requests by the Planning Department, West LAPD, the City Attorney, the Council Office, and the Westwood Neighborhood Council to terminate and revoke the retail use of Habibi Cafe. I support this request.

According to City reports, at this site, there have been reports of homicides, armed robberies, assaults, and repeated citations for selling alcohol without an ABC License and operating as an unlicensed after-hours nightclub without any permits, among other violations.

It's time to hold businesses accountable. Please join me in demanding that the City take action to keep our neighborhoods in #CD5 safe. #WestwoodVillage #Crime #safety #ILoveLA #Westwood

Public hearing 9_1_2022.pdf

36K

Public hearing 9/1/2022

Habibi cafe is a victim of the crime wave just like the other businesses throughout Westwood. To be targeted as a problem after over 22 years of business is unjust. There may be a history of minor violations which have ALL been remedied, but to overstep and claim a Restaurant is a safety issue is immoral.

Two things to clarify,

- 1) We are not a nightclub. We are registered as a restaurant and abide by obtaining all the necessary permits to offer the accessory uses while dining. We are fully within our rights as a restaurant. We do NOT have live entertainment nor do we have a dancefloor or offer dancers. Any entertainment or dancing which you have observed previously were years ago, brief and brought from other customers perhaps for a brief period of time to oversee a surprise engagement or birthday surprise.
- 2) We are not a safety issue within Westwood. We are victims as well and our staff has to wait over 40 minutes for police to arrive when a transient breaks our property or attacks customers. We are then penalized for calling the police. This same activity has happened at CVS, 7 eleven and even ralphs. Many other restaurants have been broken into as well. We have never heard a word about a history of violence and a safety threat to Westwood until now. This just happens to be occurring now that our demographic has changed and many African American youth visit our location, to make these accusations now is unfair. We have many well known celebrities who feel completely safe at the cafe. We have celebrities speaking out saying this is a safe place. We have the neighbors of all industries vouching that they see us as no harm.

The only organizations calling the LADBS and LAPD who is working with the TEP are responsible for taking down many other businesses within westwood by creating false complaint calls and claim they are speaking as the voice of westwood when they have indeed excluded many individuals from that voice.

The facts are:

Many businesses in Westwood have been targeted by these neighborhood council/community groups for over 20 years and the government organizations allow them to take down businesses.

Many people in Westwood and out do not see Habibi as a nuisance or safety issue.

Our direct neighbors have not endured harm as a result of Habibi Cafe.

The property managers in the surrounding areas have spoken as well and claimed Habibi cafe is an asset the the city of Westwood.

Upon reviewing the data from the LAPD, many places in Westwood are victims of crime and have strange individuals coming around their business. The only reason Habibi cafe has a significant amount of reports associated is simply because we are open later hours and we are able to assist with making calls on behalf of individuals throughout Westwood who experience crime as well. Some customers leave the location and are attacked going to their cars. To that we ask where the police are.

We have all the permits necessary to say we are operating illegally as a nightclub, do not have any permits and are a safety issue to the area is slander and libel and will cause economic harm to the business. When in court under nuisance law, no parties who have reported would stand as they are not directly harmed. More than half of the LAPD's data would be thrown out of discovery as it is inaccurate and we have proven that. We have offered to discuss this matter if it bothers the city of Westwood but have not heard a response. We did everything a legally reasonable entity should have done and I'm sorry to say this case will not dissolve easily.

Many individuals from organizations such as BLM are concerned about the government and HOA involvement now that the demographic has changed. There are many middle eastern associations who feel they are a target and have offered our help on this matter. And many athletes, celebrities and artists have spoken with us in reference to the HOA accusations and the way they represent themselves on social media and what they stand for.

Please reconsider and come speak to us if you would like to negotiate and if possible grant a continuance for the public hearing. We have not reached out to any of the organizations offering help yet as we have not heard back from any members.

Another idea to consider is it would be impossible for our customers to be a public nuisance to individuals who are indirect from Habibi cafe as the individuals who are directly surrounding Westwood are not even affected.

Our customers have made a record and notified us they are being harassed by the LAPD when leaving Habibi and they have been asking them if they are drinking at Habibi. Obviously if someone drank and drove from a club to Westwood they would not admit that, so upon leaving the cafe if you ask them where they drank if they drank they would say the place they most recently left not that this is their second time drunk driving.
