Comments for Public Posting: "While the CEQA process is invaluable in protecting natural resources and habitat, CEQA's efficacy is only as strong as the parties involved in the process. Over the years and up to this moment, the mountains of Los Angeles have suffered countless poorly mitigated, ill-advised projects that have snuck past important CEQA scrutiny, leading to developments that fragment habitat, egregiously alter the landscape, and affect natural microclimates. With the City's official recognition and establishment of SMMC as a trustee agency and, therefore, as an integral and ongoing part of the project review process, wildlife and important native plants will have a strong and knowledgeable advocate."

Comments for Public Posting: RE: Support for Resolution Acknowledging Santa Monica Mountains Conservancy as a Trustee Agency to the City of Los Angeles (CF 21-1284) Dear City Council Members, I support this City Council item (Council File 21-1284), "in strong support of the City Council resolution to memorialize Santa Monica Mountains Conservancy (SMMC) as a trustee agency in accordance with California's Public Resources Code and CEQA". I am a strong advocate for Wildlife and Habitat Protection. I have been advocating for stronger Environmental and Wildlife Protection. I am concerned about the future of Wildlife and Habitat in the Santa Monica Mountains and surrounding habitats. I am a hiker and I enjoy spending time outdoors and with nature. I am very concerned about the quality of wildlife and the environment. I strongly urge your Support for a Resolution Acknowledging Santa Monica Mountains Conservancy as a Trustee Agency to the City of Los Angeles (CF 21-1284). Thank You, Lionel Mares, MPA

Comments for Public Posting: I support the addition of SMMC as a trustee agency to ensure that future development is conducted responsibly with regard to our already severely damaged ecosystem. We can only meet our goals as an aspiring green city if we ensure that the CEQA process really works and that native plant and wildlife habitat are truly protected. SMMC has protecting our natural environment for many years and it is the appropriate agency to take part in this process.
