WESTWOOD VILLAGE SPECIFIC PLAN

Section 1

PURPOSE

The purposes of this Specific Plan are as follows:

- A. To permit, encourage and facilitate a balanced mix of uses and an environment attractive to a cross-section of the community (in particular, nearby residents, office employees and U.C.L.A. students and staff), so that Westwood Village continues to function as a retail center that primarily serves the surrounding community and secondarily serves the broader regional and tourist market.
- B. To permit, encourage and facilitate the preservation, renovation and ongoing maintenance of historically and architecturally significant buildings.
- C. To limit the amount of new development at intensities and heights that are:
 - 1. compatible with the predominant character and pedestrian scale of the Village and the capacity of the Village street system;
 - 2. adequate to encourage the preservation of historically and architecturally significant buildings through the transfer of Unused Permitted Floor Area from those significant buildings to potential development sites;
 - 3. adequate to encourage the provision of neighborhood-serving uses, residential uses above the ground floor, and additional public parking through the floor area bonus program of the Specific Plan; and
 - 4. adequate to encourage the provision of streetscape improvements and additional public parking directly by developers and through the assessment of all developed properties in the Village.

- D. To locate new development strategically in order to attract new uses and users.
- E. To permit, encourage and facilitate the provision of basic services and amenities (in particular, short-term daytime parking and pedestrian amenities) that will permit the Village to function as a shopping area.
- F. To encourage and facilitate non-automobile access to the Village by:
 - 1. facilitating pedestrian and shuttle access from U.C.L.A., Wilshire Boulevard offices and surrounding residential areas;
 - 2. providing sufficient parking to serve the Village without encouraging excessive automobile trips to the Village; and
 - 3. developing programs to encourage carpooling and the use of public transit.
- G. To mitigate the impacts of Village development on nearby residential areas.

Section 2.

RELATIONSHIP TO OTHER PROVISIONS OF THE MUNICIPAL CODE

- A. The regulations of this Specific Plan are in addition to those set forth in the planning and zoning regulations of the Los Angeles Municipal Code (LAMC) and any other relevant ordinance and do not convey any rights not otherwise granted under the regulations and procedures contained therein, except as provided herein.
- B. Wherever this Specific Plan contains regulations which require greater setbacks, lower density, lower height, restricted uses, greater parking requirements or other greater restrictions or limitations on development than would be allowed pursuant to the regulations contained in the Los Angeles Municipal Code, the Specific Plan shall prevail and supersede the applicable provisions of that Code.
- C. The procedures for the granting of compliance, adjustments, modifications, exceptions, amendments, and interpretations in relation to the requirements of this Specific Plan are set forth in Section 11.5.7 C through H of the Los Angeles Municipal Code, as that Section may be amended from time to time. The procedures for the granting of an Administrative Review approval are established in Section 3 A of this Specific Plan.
- D. Projects located within this Specific Plan Area are exempt from the requirements for Mini-Shopping Centers and Commercial Corner

Development set forth in Los Angeles Municipal Code Sections 12.22 A.23 and 12.24 W.27.

- E. The procedures for obtaining a recommendation from the Design Review Board (DRB) are set forth in Section 16.50 of the Los Angeles Municipal Code and shall apply to all Projects requesting project compliance, adjustments, modifications, exceptions, or a Certificate of Appropriateness unless otherwise stated in this Specific Plan. In addition, Projects requiring a Certificate of Appropriateness shall be subject to the procedures set forth in Section 12.20.3 of the Los Angeles Municipal Code.
- F. All references in this Specific Plan to any chapter or section of the LAMC incorporate by reference any amendments of those sections or chapters that may occur from time to time.

Section 6.

PRESERVATION OF CULTURAL RESOURCES

A. Designation of Cultural Resource.

The structures listed on Table 1, located on the sites designated as such on Figure 2, are hereby designated as Cultural Resources.

B. Transfer of Unused Permitted Floor Area from Cultural Resource Sites.

Any portion of Unused Permitted Floor Area on a Cultural Resource site may be transferred to any Receiver Site identified on Figure 2. Any such transfer shall be evidenced by a Covenant, signed by the transferor and transferee, the obligations and benefits of which run with the land and which is binding on subsequent owners or assignees, which document restricts the floor area on the Cultural Resource site to the extent such floor area is transferred to a Receiver Site. After the Covenant is recorded, a copy of the Covenant bearing the Recorder's

number and date shall be furnished to the City Planning Department for its records.

C. Certificate of Appropriateness.

No Cultural Resource in the Specific Plan Area shall be demolished, relocated, significantly altered or removed unless a Certificate of Appropriateness has been approved by the designated decision-maker in accordance with the standards and procedures set forth in Sections 12.20.3 K, N, O, P and Q of the Los Angeles Municipal Code. Section 7.

BUILDING INTENSITY

A. Base Permitted Floor Area.

Base Permitted Floor Area on a lot shall be two times the buildable area of the lot.

B. Additional Permitted Floor Area.

The total permitted floor area of a site shown on Figure 3 as a shaded area may be increased up to the maximum shown on Figure 3 for that area through one or a combination of the following:

1. The transfer of Unused Permitted Floor Area from Donor Sites pursuant to Sections 7 B and 9 F of this Specific Plan.
2. The provision of Neighborhood Retail or Neighborhood Services on the site. One square foot of floor area may be added for each square foot of ground floor Neighborhood Retail or Neighborhood Services, provided the continued use of that quantity of floor area for Neighborhood Retail or Neighborhood Services is guaranteed by Covenant, except that Neighborhood Retail provided to qualify for a bonus pursuant to Section 7 B 8 of this Specific Plan is not also eligible for additional floor area. This bonus shall not exceed the densities shown on Figure 3. After the Covenant is recorded, a copy of the Covenant bearing the Recorder's number and date shall be furnished to the City Planning Department for its records.
3. The provision of parking spaces for public use which are in excess of those required for uses on the site, provided that such spaces are available in the Specific Plan Area as part of an existing or future Village-wide validation system. One hundred square feet of floor area may be added for each additional parking space so provided.
4. The provision of dwelling units above the ground floor of a commercial building. One square foot of floor area may be added for each square foot of floor area contained within such

dwelling units and corridors adjacent thereto, provided that the continued use of that floor area for residential use is guaranteed by Covenant. After the Covenant is recorded, a copy of the Covenant bearing the Recorder's number and date shall be furnished to the City Planning Department for its records.

5. A Village-wide total of 35,000 square feet of additional floor area (but no additional height) in excess of the maximums shown on Figure 3, not to exceed an additional one-half times the buildable area on any one lot, shall be permitted in exchange for provision of any of the following improvements:
 - a. 30,000 square feet, Village-wide, of additional floor area may be constructed in exchange for the design and construction of the below listed sidewalk improvements to be located within (1) the Westwood Boulevard right-of-way between Wilshire Boulevard and Lindbrook Drive, (2) the Gayley Avenue right-of-way between Wilshire Boulevard and Lindbrook Drive, and (3) the Glendon Avenue right-of-way between Wilshire Boulevard and Lindbrook Drive. Such improvements, as set forth in subparagraphs (1) through (4) below, shall apply to each of the three rights-of-way described above.

 - (2) Thirty 24-inch boxed street trees, 48-inch diameter tree grates and frames;
 - (3) Ten street lights on 15-foot ornamental steel poles; and
 - (4) Ten permanent pole or wall mounted metal waste receptacles. The City Engineer shall approve the final design of the improvements and the selection of materials, and shall approve the completed improvements. The design of all such improvements shall be subject to review by the DRB.
 - b. 2,500 square feet, Village-wide, of additional floor area in exchange for the provision of a single mid-block public pedestrian connection between Glendon Avenue and Westwood Boulevard, provided that the connection is located at ground level and not closer than 200 feet from Weyburn Avenue or Kinross Avenue, does not result in a change to a Cultural Resource, and is consistent with the Westwood Village design guidelines approved by the City Council. The pedestrian connection shall conform generally to the following design standards:
 - (1) It shall be constructed of a hard, durable surface and shall be a minimum of 6 feet in width; provided, however, the City Engineer may require a greater

- width if such is necessary to carry anticipated pedestrian traffic.
- (2) It shall be designed and constructed to conform to applicable Americans with Disabilities Act (ADA) accessibility standards.
 - (3) Components of the pedestrian connection shall be designed to be wholly contiguous and completely accessible to the public.
- c. 2,500 square feet, Village-wide, of additional floor area in exchange for the provision of a single mid-block public pedestrian connection between Broxton Avenue and Westwood Boulevard, provided that the connection is located at ground level and not closer than 150 feet from Weyburn Avenue or Kinross Avenue, does not result in a change to a Cultural Resource, and is consistent with the Westwood Village design guidelines approved by City Council. The pedestrian connection shall conform generally to the design standards set forth in paragraph b above. A building permit for a Project utilizing the additional floor area permitted pursuant to this subdivision may be issued only after the City Engineer has approved the design of the sidewalk improvements on mid-block public pedestrian connection and the owner has guaranteed completion thereof by surety bond, letter of credit or other means approved by the City Engineer. A certificate of occupancy to which the owner is otherwise entitled may not be issued until the sidewalk improvements or mid-block public pedestrian connections has been completed to the satisfaction of the City Engineer; or if not completed, upon the City Engineer's certification that completion of the sidewalk improvements, or pedestrian connections are beyond the control of the owner. In any event, the sidewalk improvements or pedestrian connection shall be completed within a reasonable period of time as determined by the City Engineer.
6. Additional Permitted Floor Area may be transferred from any site in a shaded area on Figure 3 to any other site in a shaded area on Figure 3. Any such transfer shall be evidenced by a Covenant, signed by the transferor and transferee, in a form to run with the land and which is binding on subsequent owners or assignees, which document restricts the floor area on the Donor Site to the extent such floor area is transferred to a Receiver Site. After the Covenant is recorded, a copy of the Covenant bearing the Recorder's number and date shall be furnished to the City Planning Department for its records.
7. The amount of additional floor area permitted pursuant to Subdivisions 2, 3, 4 and 5 above and Section 9 F below (equivalent to the floor area devoted to Neighborhood Retail, Neighborhood Services, dwelling units or new public parking on sites not designated as Receiver Sites) may be transferred to a Receiver Site, provided the continued use of that floor area

for such uses is guaranteed by Covenant. After the Covenant is recorded, a copy of the Covenant bearing the Recorder's number and date shall be furnished to the City Planning Department for its records.

8. A hotel may contain one Guest Room for each 325 square feet of buildable area. Provided, however, if a Full Service Grocery Store is constructed by the developer of the hotel, the hotel may contain one Guest Room per 300 square feet of buildable area for each 500 square feet of floor area devoted to such Full Service Grocery Store; the remaining Guest Rooms shall be calculated at one Guest Room per 325 feet of buildable area. Such Full Service Grocery Store shall occupy at least 30 feet of ground floor Building Frontage and shall be located either on the site of the hotel development or on another lot within the Specific Plan Area. The site at which the Full Service Grocery Store is located shall be restricted to such use by a Covenant. After the Covenant is recorded, a copy of the Covenant bearing the Recorder's number and date shall be furnished to the City Planning Department for its records.
9. Floor area ratio averaging/reallocation may be permitted in Subarea 2 for Unified Developments provided the maximum floor area for the Project does not exceed the total amount permitted on the combined subject properties.

C. Transfer or Increase of Development Rights-Procedure.

1. Whenever floor area is increased as permitted by Section 8 B of this Specific Plan, or the right to construct floor area is transferred, a Covenant shall be made a condition of such transfer or increase and shall be executed and recorded by the owners of each of the parcels involved, setting forth the amount of additional or transferred floor area thereby allowed and binding such owners and their successors to the limitations and requirements imposed by this Specific Plan in connection with such transfer or increase in floor area. After the Covenant is recorded, a copy of the Covenant bearing the Recorder's number and date shall be furnished to the City Planning Department for its records.
2. Any owner of property within the boundaries of the Westwood Community Plan area may seek an appropriate court order to enforce the provisions of such a Covenant or this ordinance, provided that such person first exhausts his or her administrative remedies with the City of Los Angeles pursuant to Subsection D of this Section and applicable provisions of the Los Angeles Municipal Code.

D. Enforcement.

The construction of and the continued use of any building, or portion thereof, permitted pursuant to the provisions of Subsection B of this Section is conditioned upon the actual construction of the improvement and maintenance of the use as set forth in Subsection B. In the event such improvements are not constructed, or the uses are not maintained or in the event such uses are terminated, any

building permit or certificate of occupancy allowing the construction or use of any building, or portion thereof, pursuant to Subsection B, shall be revoked.

B. Exceptions to Height Requirements.

1. Measurement of structures

- a. When the elevation of the highest adjoining public sidewalk within a five-foot horizontal distance of an exterior wall of a building exceeds grade by more than five feet, a building or structure may exceed the height permitted under Subsection A of this Section in number of feet by not more than the difference between the elevation of the highest adjoining public sidewalk and grade. However, no such additional height shall cause any portion of the building or structure to exceed a height of 45 feet, as measured from the highest point of the roof structure or parapet wall to the elevation of the ground surface which is vertically below that point of measurement.
- b. Notwithstanding Paragraph a above, for Projects located in Subarea 2, on sites which total one acre or more, the height of the structure, excluding roofs, roof structures, parapets and Unoccupied Towers, shall not exceed a height of 55 feet as measured from the highest point of the structure to the ground surface vertically below the point of measurement.

Above 40 feet, the building, roof and roof structures shall be set back from the building line or lot line at a 45-degree angle.
2. The height of a building adjacent to one or more Cultural Resources shall not exceed a height that is within five feet of the average height of the adjacent Cultural Resources or 30 feet, whichever is greater. Above this height, the building shall be set back from the building line or lot line at a 45-degree angle.
3. Except on Broxton Avenue, at least 80 percent of the exterior wall along the Building Frontage shall be located no more than five feet from any building line or any lot line parallel to a public street if there is no building line, up to a height of 30 feet or the top story, whichever is less.
