RE: COUNCIL FILE NO. 22-0932 COMMUNICATION TO FILE

On September 15, 2022, the Energy, Climate Change, Environmental Justice and River Committee considered a Los Angeles Department of Water and Power (LADWP) report relative to the Scattergood Generating Station Units 1 and 2 Green Hydrogen Ready Modernization Project (Project) Resolution and Ordinance. After consideration, the Committee requested the following information:

1. CONTINUE the item to a date determined in October.
2. REQUEST the LADWP to report, with an accompanying slide presentation to be included on the file prior to the scheduled committee meeting, regarding the Hydrogen-Ready Modernization Project.
 - a) Include within the report detailed information regarding the AQMD permitting process as it relates to NOx emissions at Scattergood, and
 - b) Include within the report details on how the Department will comply with AQMD's strict emission limits in the aggregate and during high-demand periods, and
 - c) Include details on how the Project will improve air quality across all time period metrics as compared to current fossil fuel usage, and to demonstrate compliance with the air quality mandates found in Council Files: 22-0255 and 21-0352, and include details on the current data regarding potential leaks and emissions related to the use of hydrogen at power plants.

Sincerely,

Eric Millanueva, Legislative Assistant
Energy, Climate Change, Environmental Justice and River Committee
