Item Number: X. H.

Summary: The Reseda Neighborhood Council is in strong support of the focus and effort to improve the health and longevity of street trees, park trees, and private property trees. Reseda supports efforts to preserve and increase our tree canopy. The San Fernando Valley often experiences temperatures more than 20 degrees warmer than areas in the Central Basin. Shade trees can reduce local temperatures 20 degrees. It is crucial we find ways to support mature canopy trees to fight climate change, while engaging in critical water conservancy efforts. The vote took place in a Brown Act compliant meeting on September 19, 2022. The vote was 7 yes, 1 abstain.
