Comments for Public Posting: Dear Council Member Price, I am worried that this motion of yours won't help and/or put a dent in the Homelessness Crisis in your district and the rest of the City of Los Angeles. I believe that the city of Los Angeles should build Public Housing and use Eminent Domain to help in dealing with the homelessness crisis. A private entity, such as private developer, building a "mixed-use" housing and retail won't do much to curb the housing crisis. So called "mixed use" housing only benefits those who are wealthier and who have the means to pay high rent while the poor and working class can't afford to pay rent at such a place. I hope you'll consider withdrawing your motion and think deeply about what you're proposing here. Thanks!
