**Council File No:** 17-0447-S2

**Comments for Public Posting:** I'm honestly curious how many of the City Council members drive ONLY EV's. Who ONLY have electric water heaters and electric stoves. Who don't BBQ. Who don't utilize gardeners who use gas powered landscaping tools. Who have rid their homes of plastic and use glass only. Who don't used delivery services who use diesel or gas powered delivery vans. Put up or shut up
