Comments for Public Posting: I have been a City of Los Angeles employee for over 23 years. I worked through the pandemic as an essential worker. The President of the USA, the State Health Officer, and others have declared the pandemic over. The head of USC Medical Center, Infectious Disease Division, has stated that the City has been in the Endemic stage since February 2022. I am respectfully requesting that the City Council rescind all Ordinances dealing with COVID 19. I have devoted almost half my life to this City, and would very much like to finish out my career here. That will be impossible for me, with these Ordinances still in place. I love my job. I do it very well. Please rescind these Ordinances, and allow me to continue providing power to the citizens of Los Angeles.

Comments for Public Posting: Please allow council members Buscaino and Lee's motion to be heard before the whole council to rescind the Covid-19 Vaccine mandate. So much has changed and it is widely accepted that everyone can get and give Covid, vaccinated or not. All people should be allowed to choose whether or not to get a EUA vaccine or not. Respectfully, Tony Pircey

Comments for Public Posting: Rescind the vaccine mandate already. This Council is doing irreparable harm to it's employees and citizens by continuing on this path. Stop the madness already.

Comments for Public Posting: With so many changes that have happened since the ordinance was voted on it IS the right time to consider rescinding the mandate for employees. The CDC says there is no difference between the vaccinated and non vaccinated. The president says the pandemic is over. The NY judge says that the government can not enforce a medical mandate for employees as a condition of employment. The contract for bluestone was a conflict of interest for \$6 million and is now expired leaving the city without testing means which violates the ordinance. Employees continue to work hard for the city they love! Let employees do their job! Support Council Member Busciano motion to rescind the employee mandate. Do the right thing! Thank you for your time.

Comments for Public Posting: Good Afternoon I am writing today to ask you to please end all mandates COVID, for all city employees. The are good honest hard working people trying to provide for their families. Even the health department has dropped all COVID mandates. The EMPLOYEES HAVE BEEN THROUGH enough. I URGE YOU TO DO the right thing. Reinstate all employees that were fired for not complying with the mandates. Even during a pandemic the constitution is not put on hold or suspended. You all took an oath to uphold the US constitution. The COVID vaccines are not even approved by the FDA. You can not force people to take an experimental vaccine. Again I urge you to do what's right. Thank you
