Council File No: 21-1222

Comments for Public Posting: Dear Los Angeles City Council Representatives: I am writing to strongly urge you to take into account the northeast San Fernando Valley when the Department of Transportation (LADOT) is implementing the "installation of more durable materials in the neighborhoods included in the initial Slow Streets L.A. Program, as described in this report" (https://clkrep.lacity.org/onlinedocs/2021/21-1222_rpt_09-29-22%20.pdf). I want to see my community receive the same treatment and respect as other affluent neighborhoods that receive 'special' attention when the city installs bicycle infrastructure. I have told Michel Schneider that he has to do more to assist me in pressuring city officials and the Department of Transportation (LADOT) to install Bicycle Infrastructure in the East/North/Northeast San Fernando Valley. Our communities are being NEGLECTED by city officials. It is NOT fair! I have been advocating for more resources. Please, help make this happen! - Sincerely, LIONEL MARES.
