**Comments for Public Posting:** Please support the Plant-based resolution—our planet can't wait. The more plant-based our diets are, the better. I've been a vegan for over 20 years and have never felt more energized and healthy. A plant-based diet can spare animals from suffering, but more importantly, it can reduce heart disease, obesity, and other health problems, and address green house emissions. A plant-based diet is a win-win for all. Thank you!!
