**Comments for Public Posting:** Please pass the plant based treaty. The meat and dairy industry are far outdated. We have enslaves entire species for the purpose of torturing and slaughtering them against their will and have ripped them of their freedom to live freely, which they have every right to do just as much as human beings do. The injustice we have served to animals is beyond any injustice that the human race has ever inflicted upon anyone or anything in history.

**Comments for Public Posting:** I am writing in support of the Plant Based Treaty because Los Angeles needs to continue to be a leader in the fight against climate change. Our lives literally depend on this - from an environmental and a health perspective. A climate action plan can't ignore the positive impact that plant-based diets have on the environment. We have barely seen this concern raised when discussing climate change. We need all solutions to be at the forefront. I also look forward to seeing a positive shift in the health habits of angelenos through changes in policy that will make it easier for them to access and afford healthy, plant-based food options. There are countless other benefits to eating plant-based but I wanted to share my thoughts on these two topics because they are most relevant for this discussion. Thank you for your time!

**Comments for Public Posting:** The adoption of a Plant Based Treaty as a companion to the UNFCCC/Paris Agreement will put food systems at the heart of combating the climate crisis. The Treaty aims to halt the widespread degradation of critical ecosystems caused by animal agriculture, to promote a shift to more healthy, sustainable plant-based diets and to actively reverse damage done to planetary functions, ecosystem services and biodiversity. Please join in!

**Comments for Public Posting:** Please endorse the plant-based treaty. I am a Los Angeles native and constituent from ZIP Code 90026. I wholeheartedly endorse the plant-based treaty and recognize that it is the primary hope against climate catastrophe. We must be leaders in Los Angeles as we are a massive economy and we are looked to for leadership and progress. Let's be a progressive and groundbreaking city and do the right thing for all inhabitants and creatures on our beautiful planet. We don't have much time left, it's time to act. Endorse the plant-based treaty today.

**Comments for Public Posting:** The science is clear we cant combat the climate crisis without shifting to a plant based food system as animal agriculture continues to be a leading contributor to greenhouse gas emissions, habitat loss, species extinction, & more. Los Angeles has the potential to be a leader in taking action to mitigate the climate crisis by endorsing the Plant Based Treaty.
