**Comments for Public Posting:** More vote buying by democrats = NO ONE alive today was a slave- and no one alive today was a slave holder- yet, the democrats want to use tax dollars to buy the votes of a greedy population- if at any time any of these people was ever on the public dole- will they have to pay those monies back? And while you weep and gnash your teeth over something that my ancestors fought and died to stop- what are you doing about the current slave trade going on at the democrat owned open border- and heck my ancestors fought to end slavery- where are their payments?
