**Comments for Public Posting:** I would like to lend my support, together with The Friends of Griffith Park, for the alternative 1 to the LA zoo expansion plan. I remember the current zoo with its shady tree canopy, as the perfect toddler heaven. The annual pass encouraged me to frequently take the children. A perfect, off peak, alternate playground. A serene, semi tropical world where the animals fit unobtrusively into the landscape. Over the years I have also seen a lot of reclusive wildlife enjoying the zoo's surroundings in the tucked away canyon. There are many theme parks around the world but the LA zoo has a totally unique charm. The zoo should use, build and improve upon it rather than bulldozing trees and concreting huge structures.
