Council File No: 22-1125

Comments for Public Posting: Hello. I am a Northridge resident, I am a senior citizen and I am besieged by unacceptable levels of jet activity in and out of VNY. The propeller nightmare is no picnic however, the unfathomable war zone that is the Valley is a violation of the public's rights. Please see the attached PDF file titled: VNY - Irresponsible Stewardship. I took it from a Valley community group website and it is a accurate description of how so many of us feel. L.A. City Council has negligently allowed special interests to destroy the Valley. The over privilege of some are destroying life for everyone in the Valley. City Council needs to accept their failures to this city's citizens and explore and implement all options to reduce this toxic mess. At my advanced age I earned the right to live a PEACEFUL life. I can not hear myself think inside my own home. I can not heal from injury or illness on my own property without the added burden of stress, increased blood pressure and anxiety, and horror over the unwarranted addition of the toxic cocktails being sprayed down upon myself, home and family and all from the battlefield that Council has created in the Valley. These private charters are not a necessity. Public transit access to our skies exists at commercial airports. Please look at the image attached. Sometimes an image can say more than words alone. Do the right thing for Los Angeles residents and reduce this horrifying toxic footprint that is VNY airport.

While VNY airport may have predated the residential communities, the **residential communities predated the BILLIONAIRES takeover of VNY** (David Murdock, Bill Gates, etc). A takeover by means of irresponsible city stewardship that permitted outrageous hanger builds for FBOs (*mostly between 2017-2022, with one just reaching completion*) and with no buffer between toxic output of fumes and vulnerable Lake Balboa residents, and no consideration for the home environments of 2 million Valley residents now exposed to an influx of unwarranted and detrimental pollution (lead, noise, particulate matter and a cocktail of toxic chemicals) for non-essential travel that betrays public trust, defies common sense and principled actions (<https://www.socalsfv.com/TalkingPoints.html>), lacks moral leadership, and predominately benefits the wealthiest 1% of society **at the expense of the common good**. Economical benefits should NEVER be used as an excuse - NOR given precedence - over the HEALTH, well-being and quality of life for MILLIONS of Los Angeles residents and our vital wildlife and ecosystem. Time for mitigation & reduction of ☠️ VNY! **And time to PROSECUTE for LAWYER'S deliberate violation** of Assembly Bill No. 1628, Chapter 360, Sec 4, 30107.3 (b1), (b3). (b4) and other State Environmental laws circumvented.
