

EXHI BIT 13 Forecasted Regional Development Types by Land Development Categories (2012) - Los Angeles City Subregion

HQTA (2012)

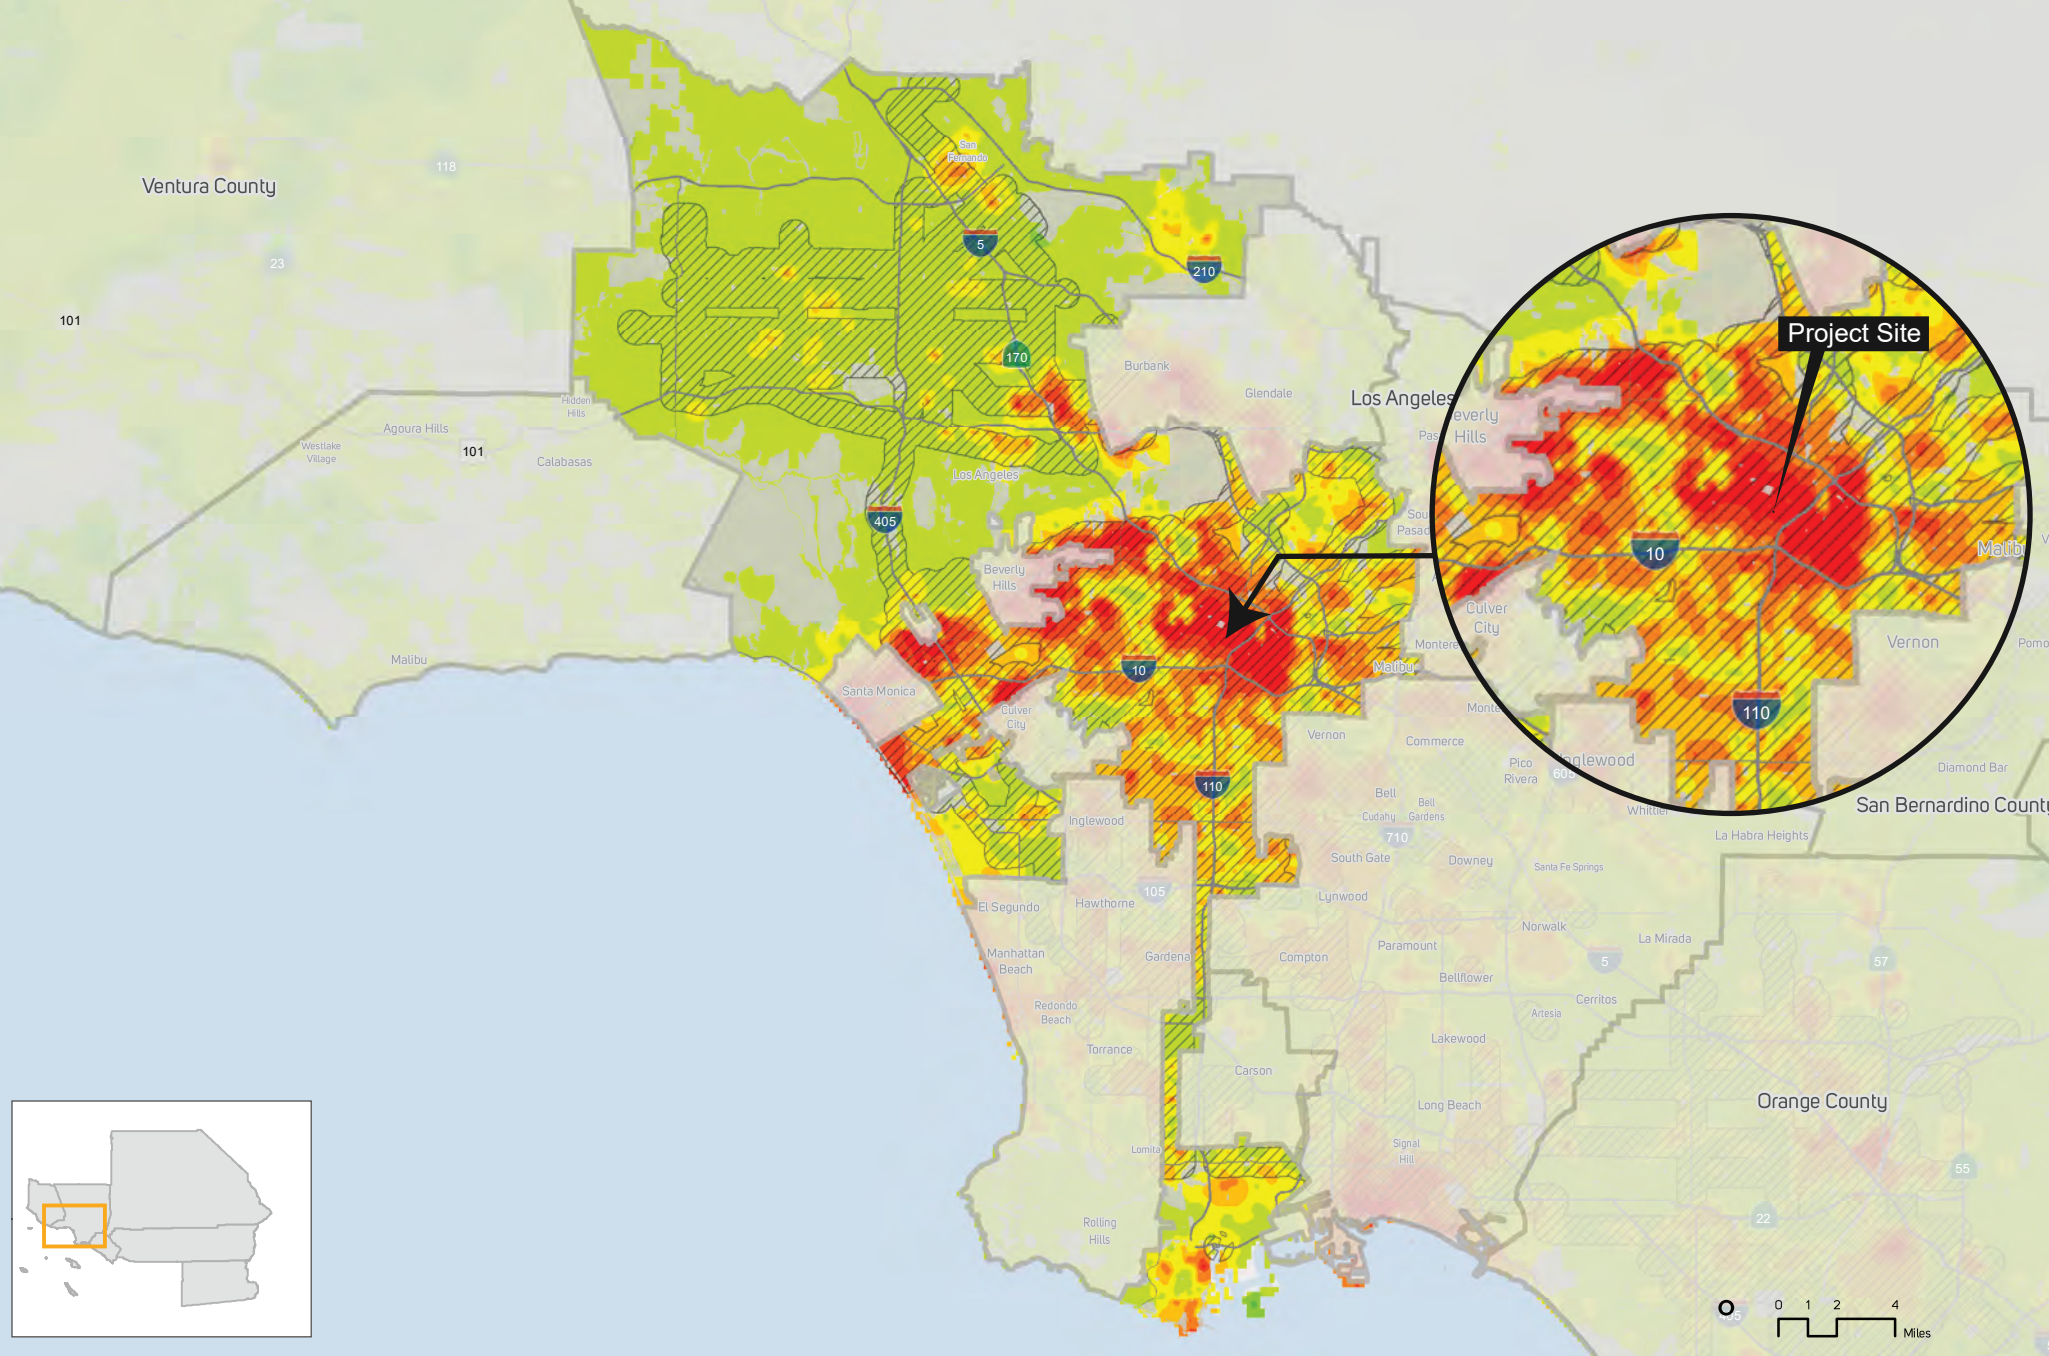

California Protected Areas Database (CPAD)

Urban Compact Standard

Description of LDCs can be found on page 43.

Note: The forecasted land use development patterns by LDCs shown are based on Transportation Analysis Zone (TAZ) level data utilized to conduct required modeling analyses. Data at the TAZ level or at a geography smaller than the jurisdictional level are advisory only and non-binding, because SCAG sub-jurisdictional forecasts are not to be adopted as part of the 2016 RTP/SCS. For purposes of qualifying for future funding opportunities and/or other incentive programs, sub-jurisdictional data and/or maps used to determine consistency with the Sustainable Communities Strategy shall only be used at the discretion and with the approval of the local jurisdiction. However, this does not otherwise limit the use of the sub-jurisdictional data and/or maps by SCAG, CTCs, Councils of Governments, SCAG Subregions, Caltrans and other public agencies for transportation modeling and planning purposes. Any other use of the sub-jurisdictional data and/or maps not specified herein, shall require agreement from the Regional Council, respective policy committees and local jurisdictions.

Priority Growth Areas vs. Regional Growth Constraints

- Job Center
- Neighborhood Mobility Areas
- High Quality Transit Area
- Regional Growth Constraints

Note: SCAG used locally informed data elements to determine Regional Growth Constraints such as Tribal lands, Conserved Land and others. See the Sustainable Communities Strategy Technical Report for more details.

Exhibit 3.4
Priority Growth Areas & Growth Constraints

- County Boundaries
- Sphere of Influence
- City Boundaries
- Regional Growth Constraints

Note: SCAG used locally informed data elements to determine Regional Growth Constraints such as Tribal lands, Conserved Land and others. See the Sustainable Communities Strategy Technical Report for more details.

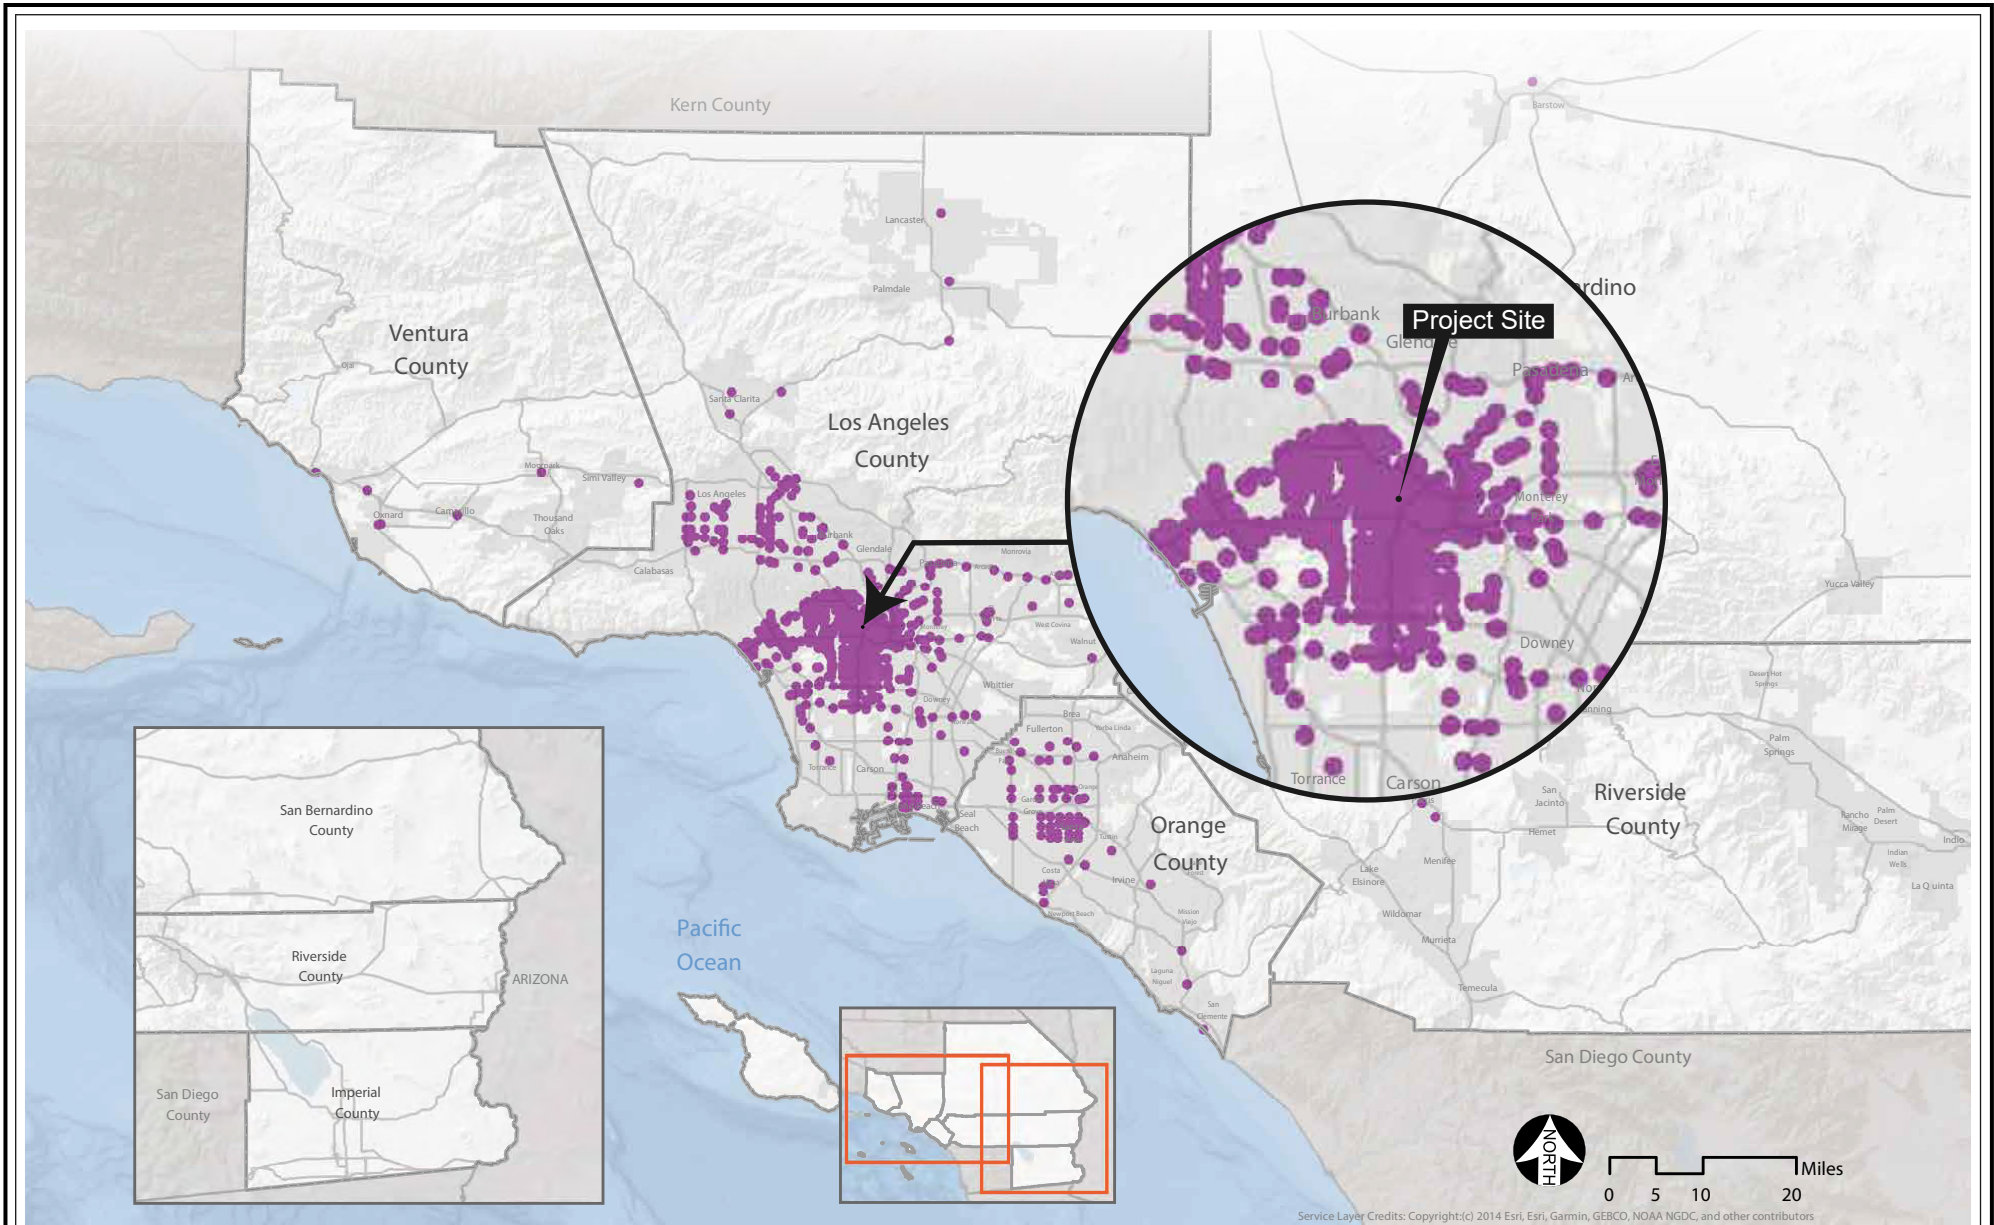

SCAG Region Proposed 2020 RTP/SCS Job Centers (Total Employment)

- Less than 10,001 (17)
- 10,001 - 25,000 (22)
- 25,001 - 50,000 (19)
- 50,001 - 150,000 (11)
- More than 150,000 (3)

Notes:

- (1) Centers are areas with denser employment than their surroundings.
- (2) Dots represent the total employment in each center, not center boundaries.
- (3) Names are intended to be illustrative and may not reflect all the jurisdictions in which a center fully lies.

Transit Priority Areas (2045)

■ TPA

Note: Transit priority area (TPA) refers to an area within one-half mile of a major transit stop that is existing or planned. SCAG identifies major transit stops and transit priority areas using the methodology described in the Transit Technical Report. Major transit stops are extracted from 2045 plan year data of Connect SoCal.

High Quality Transit Areas (2045)

■ HQTA

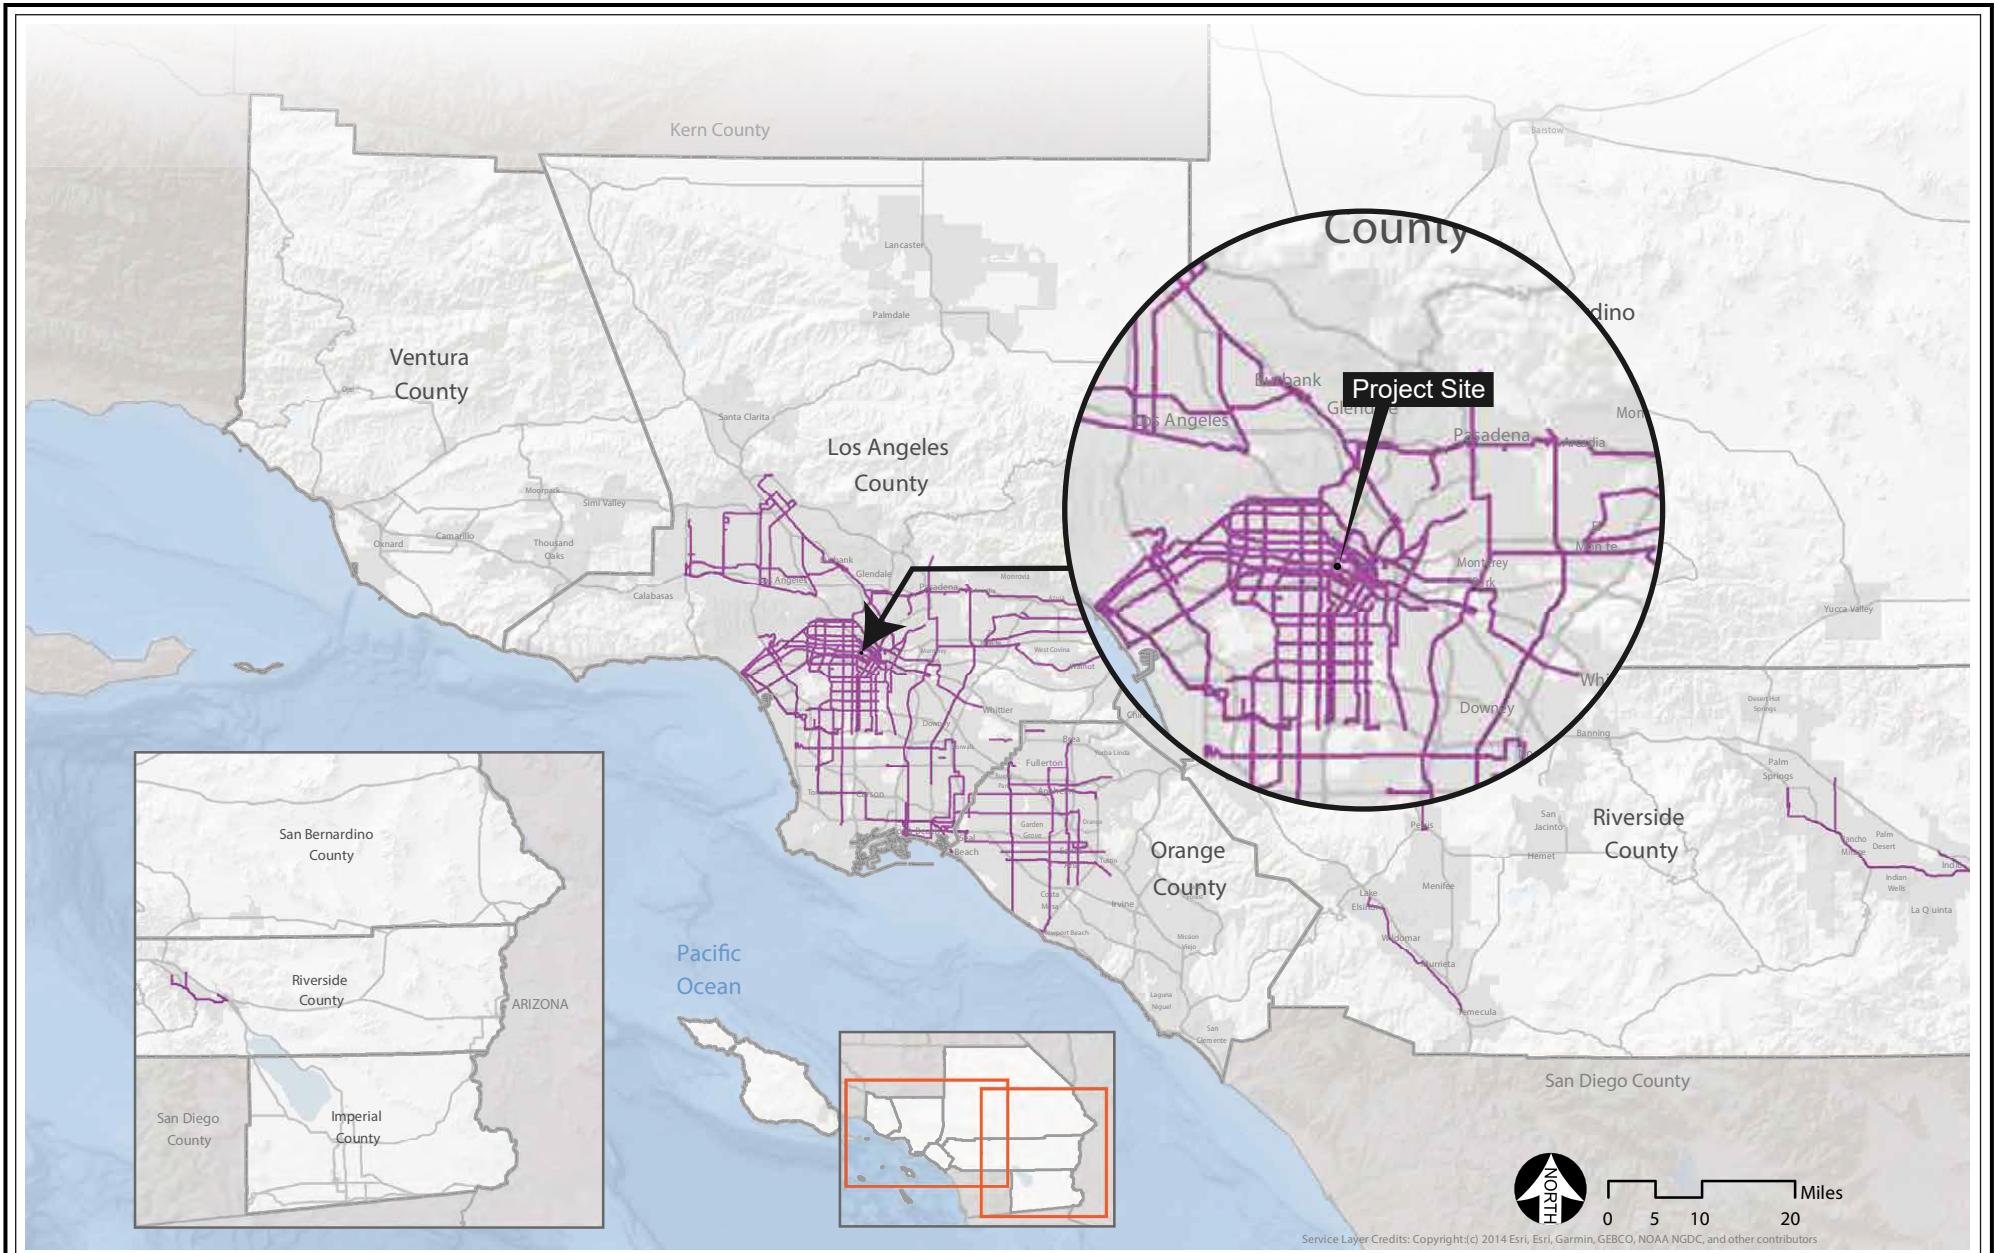

Note: SCAG's High Quality Transit Area (HQTA) is within one-half mile from major transit stops and high quality transit corridors (HQTC). SCAG identifies major transit stops and HQTCs using the methodology described in the Transit Technical Report. Major transit stops and HQTCs are extracted from 2045 plan year data of Connect SoCal.

Neighborhood Mobility Areas (NMA)

■ NMA

Note: Neighborhood Mobility Areas (NMA) were identified by analyzing and assigning z-scores four measures at the Tier 2 TAZ level, and subsequently summing the z-scores. TAZs that scored at the 80th percentile or higher for the composite score were considered NMAs.
