I find this rather amusing that they all are making racist remarks about Jews, People of Color and all the other nationalities because just what do they think they are especially that President she is about as Hispanic in appearance as they come, in fact all of them are anything but Caucasian. These protests may create violence everywhere even riots. How about requiring their immediate resignations or just fire them and have replacements for their jobs. They could do to the City Building what happened in Portland! The City needs peace so remove the source of trouble at once and save on destruction, murders, etc. We do not want this extending to neighboring cities. The mouth is a weapon and people's minds snap at stuff like this. All four of them need to go so Los Angeles will calm down by seeing them being held accountable. This will end all the retaliation or demonstrations.

I Jerrod Biglow stand with everyone else who have called or contacted you regarding resignations from everyone involved in the racist conversation by the members who represents ALL of LA

Thanks
