**Comments for Public Posting:** I'm an Angeleno and a trained architect who supports the Livable Communities Initiative and am asking the City Council to do the same! By marrying gentle density with complete streets the LCI will make our city more vibrant, affordable, equitable, and just plain better. I want to be able to live in our city while being less dependent on cars.

**Comments for Public Posting:** I'm an Angeleno who supports the Livable Communities Initiative and am asking the City Council to do the same! By marrying gentle density with complete streets the LCI will make our city more vibrant, affordable, equitable, and just plain better. As a young professional, I want to be able to live and work in the middle of the city, and I believe that this initiative will go a long way towards helping me realize that goal.

**Comments for Public Posting:** support the Livable Communities Initiative as a holistic and equitable solution to our housing, mobility and climate crises, and call on the city council to pass motion 21-1230-S2 to help implement the LCI vision, outlined in program 131 in L.A.'s Housing Element. Los Angeles is facing a dire housing crisis that is driving up rents and housing costs across the city, displacing people from once affordable communities, and leading to lengthy commutes. This adds to the city's unsustainable traffic congestion, our global climate emergency and a crisis of street safety that impacts all Angelenos, but disproportionately affects low-income communities of color. The LCI encourages creation of sustainable, walkable, car-light communities on job-rich commercial corridors, with safe micro-mobility options near transit. The goal is to create affordable, mixed-income 15 minute communities, with beautiful housing above retail, where most of a resident's weekly needs can be met without having to drive. Please support and implement the LCI vision with urgency to meet the scope of our housing and human dignity crisis, our climate crisis, our air pollution and health crisis, and the crisis of our dangerous and deadly streets.

**Council File No:** 21-1230-S2

**Comments for Public Posting:** I greatly support the livable Communities Initiative and call on the City Council to pass motion 21-1230-S2 to help implement the LCI vision, outlined in program 131 in L.A.'s Housing Element. As former Board Member of our Greater Wilshire NC as well as Chair of its Land Use Committee and also as a citizen, i have witnessed the disastrous effects of Los Angeles housing crisis. The LCI's approach is by far the most sustainable, comprehensive and inspiring I have seen. It represents a triumph of vision over bad development gone awry. Please support and implement it with urgency. Sincerely Philip Farha
