**Comments for Public Posting:** Would like to remind the public that La City has 8 shelters (NOT 7 LIKE THE MOTION MENTIONED). The public has been paying for Prop F since 2000, where is the funding going? Why has all this time passed, and there is still 1 non-operating shelter. Funding breakdown should be transparent, where are the millions of dollars going?

**Comments for Public Posting:** The promises made on this were never kept . Our city needs more funding to stop this over population. As a 37 year old women born and raised in Los Angeles this is heartbreaking seeing cats and dogs as roadkill daily and we can't keep up unless funds are given and new order is in place . I pay \$1000's + every kitten season saving , spay , neutering, socializing and rehoming any cat I come across. The city needs to step up...we need help. TNR is proven .

**Comments for Public Posting:** Los Angeles county has been operating 7 shelters but Prop F passed in 2000 stating 8 shelters would be in operation. Additionally, the county needs to offer low cost spay/neuter programs to the public on a monthly basis to help decrease the number of unwanted animals entering the shelter system filling up the shelter kennels and skyrocketing euthanasia numbers of unwanted and otherwise healthy, adoptable animals. Vouchers should be provided to Rescue organizations and people doing TNR that will also help manage and decrease the homeless animal population. It is the county's duty to provide these services to the citizens as well as veterinary services and animal food programs that would help low/no income individuals keep their animals, so once again these animals do not enter the shelter system.

**Comments for Public Posting:** I am begging for management at all levels to please fund services for cats! I can't walk outside my loft without seeing a kitten or cat running in the streets the feral populations are exploding and teams of volunteers are rescuing and then can't find any spay and neuter services that are affordable!!!! We self fund to clean up the mess of what you management is NOT doing. Help the animals and provide the urgent funds!!!! A simple spay and neuter should not cost \$600!!!!!!

**Comments for Public Posting:** Transfer the 3 million emergency funding for spay and neuter services. This will prevent so many animals from being dumped in the street and also at shelters. This will also help Cats (which are the ones that are mostly in the street sick and injured).
