I'm light of the recent news of the LA city council's actions, we cannot accept any solution suggested by the council. The basis of our argument is that the actions are arbitrary and capricious, due to discrimination of two of our customer demographics. Clearly the decisions being made are to support redistricting decisions favorable in lowering the voting right of a certain demographic. The neighborhood council have capriciously decided to take these actions even though we have been here for over 20 years and have proven we pose no direct harm to the public therefore, there is no need for this public hearing.

Many members of the public and of high social status have mentioned they will step in and vouch for us if needed. Clearly this is discrimination and the crime wave of the pandemic has brought the perfect storm for an attack against Habibi cafe. Small businesses are victims of crime not the masterminds behind the crime.
