**Comments for Public Posting:** The City operates EIGHT (8) shelters and voters have been paying for Prop F since 2000 which guaranteed to provide funding to expand the existing shelters from 6 to 8 yet. However, the City only operates 6 of the shelters. Where is the funding for the remaining two shelters? In the voter guide, it stated that the number of dog kennels must be expanded to 1200 to be safe and humane yet LAAS doesn't have access to all those kennels and animals are currently living in overcrowded conditions. A detailed report regarding the finances of the entire LAAS system needs to be released so the public can see why the City has failed to keep their promise. An internal review should also be conducted on the finances of LAAS and that report should be released publicly. I also want to know: who is responsible for hold the LAAS GM accountable?
