Comments for Public Posting: Hello my name is Stephanie and I am part of the community in Pacoima and I am writing to you because the streets in the San Fernando Valley are not wheelchair accessible. Disabled people run the risk of getting run over due to there being no sidewalks on a lot of streets here in the San Fernando Valley. An example of that would be the street that is connected to Devinshire that needs to be paved for more accessible sidewalk access . I often wonder why the San Fernando Valley is often left in the back burner. People of all walks of life deserve to feel and be part of the community. Together let's work to fix inclusion for all. Thank you for your time.

Comments for Public Posting: The time has come for our east San Fernando Valley to receive its fair share of amenities that will improve our well being and connect us to nature. Please vote yes, in favor, of the Pacoima Spreading Grounds/ Street Improvement Plan. This motion will direct the City of LA to collaborate with state and county projects happening in the same area. Let's work together better for the sake of our residents. In 2009, we got a community beautification grant and have been maintaining the underutilized sidewalk now known as the Nature Parkway. It is along one side of Devonshire Street. As the main caretaker, I have explained to users of the Nature Parkway, that as local residents who volunteer to make our neighborhood a better place, our sweat equity is limited. This is our chance to get the city to take ownership of the treasure we have in our community. You will be restoring justice to the land that was once redlined due to racist policies and urban planning. We can't continue living without the amenities that can increase recreation and take the streets back for the people who live in the confluence of neighborhoods (Pacoima, Arleta, Mission Hills, Panorama City North East, east North Hills) abutting the Pacoima Spreading Grounds. Thanks for attention, let's do this!
