**Council File No:** 21-0042-S3

**Comments for Public Posting:** Stop the Massacre of mom and pop housing providers in LA city ! This is absolutely insane that govt is meddling with our property rights that we as individuals have worked so hard for! You do not get to steal our properties. You do not get to decide who can be in and cannot be in business. You cannot TAKE our properties because you as LA city council is a failed miserable entity with bunch of losers ,sadist drug addicts .And are now trying to get people like Eunisses, Erin darling, Faisal gill - sickening that people are so lazy and useless. How do you all sleep at night, except for a few who have some brain cells left to respect and protect certain rights, everyone else is just sad, pathetic losers. Tenants who cannot afford to live here in LA should move out of the city . If city is asking housing providers to make adjustments why can't you enforce the adjustments and expectations on the tenants. I really hope the wrath of all the suffering housing providers affects you and your family. Disgusting
