Comments for Public Posting: 11/5/2022 To Whom It May Concern, On behalf of all citizen-patrons using Nature Parkway, which is roughly a quarter of a mile walkway/bicycle path that begins adjacent to Devonshire park on Woodman Avenue and Devonshire street, and ends at Arleta Street / Avenue, I am calling on your attention to provide routine clean-up maintenance of the undesirable conditions of this area. Some parts of the walkway/bicycle path is so filthy that it is hazardous for any person walking without paying keen attention to the pathway. The Nature Parkway, (if that is what it is called) has become a routine dumping ground for all kinds of building and construction material debris, and the pathway scenery with plants on the side is totally unkempt, save for the occasional goodwill of others. Our pledge for your attention to this health and sanitation issue is urgent. We the citizens who frequent this walkway exercising or otherwise, would like you to take immediate action to address or remedy this undesirable situation.
