Comments for Public Posting: I am asking that this city counsel drop the state of emergency policy. We are no longer in a pandemic! If we are one nation under God then we should trust God and not the bad evil scientists who work for the devil. These vaccines have not proven to protect anyone who has received them not do they work! God is warning us to trust in him and not on your own agenda! This emergency is over - there are people in our government who are terrorists and are mind control victims. There are criminal enterprises that are being covered up by the government and are making a lot of money off us Americans for their own profits! We are not guinea pigs but children of God! Don't be a mind control victim and do the right thing! End this state of emergency!!
