Council File No: 20-0291

Comments for Public Posting: So don't blame the housing providers who are blaming progressive lefts like raman, bonin , deleon, and the rest like bob, Monica , krekorian, ofarrell who didn't standup until October 4th with Lee to end this bloody moratorium . But just us ! But when media wanted to talk to raman, sure she wasn't available , that's ok - her office cannot even provide a statement about the moratorium affecting small housing providers. So what kind of public service is this when one city council member and her office blatantly ignores the plight of us many and demands that they need to see hard data so we prove our hardship ? Like what the fuck ? You want data ? I can send you my spreadsheet with data on the liability , and how much of the savings are drained and don't mention about the inability to sell / tap into equity for our kids education because fucking you know what - we have ti pay through our nose. Get the fucking act together ppl ! Open your eyes , listen- lawsuits will come.
