Comments for Public Posting: I OBJECT to City Council approving any budget for VNY enhancements, improvements or construction to the airfield (Item #8 - 22-1405). Despite what LAWA may say, there are NO immediate safety needs associated with action. In fact, no work is even planned to begin until 2025 so there is no legitimate need for City Council to rush into this contract UNTIL a new VNY Master Plan is conceived with COMMUNITY INPUT (I REPEAT, COMMUNITY INPUT!!!!), and Council revisits the VNY Airfield Improvement Program with community stakeholders considering the current atmosphere and level of controversy over VNY and the use of Federal Grants.

Comments for Public Posting: I have spent many evenings at my friends house on Valero St in Van Nuys. We can no longer sit outside because of the fumes and we cannot hear each other because of constant helicopters and jets leaving and arriving. This was never an issue before the airport opened up to private jets that sit on the ground, running their fumes. How about an EPA study and the FAA should be involved

Council File No: 22-1405

Comments for Public Posting: OBJECTION to City Council approving any budget for VNY enhancements, improvements or construction to the airfield (Item #8 - 22-1405). Despite any LAWA rhetoric, there are NO immediate safety needs associated with action. The noise is too loud and pollution for the adjacent neighborhood.
