**Council File No:** 20-0291

**Comments for Public Posting:** Glad to see so many of you out feeding the homeless. We could not volunteer because after doing your jobs and housing already protected tenants for free for over 2 years, we WERE in line, not at Union Mission but all over the city in the neighborhoods where we landlord. So, here is the dilemma: Property Tax or Mortgage? Prop, 12/10, mortgage for Dec then onto January 2023 where we await to be freed from ALL Youall and begin to heal our damaged, uncared for properties while we can still get a bit of equity to fix what we can after paying off credit cards we've had to use to live. So, we all assume you keep to your word, the City Attorney's sign-off and the what, THREE Ordinances and we can make plans? And 'helping' landlords is not what we need from you since no one even knows what that would look like, least of all yourselves. WHAT would HELP and what WE want are our properties back; then YOU and new mayor can solve your homeless and affordable housing crisis. We can't help you out anymore.
