DISCUSSION

The 2022 CPD De-escalation Program provides grant funding to support an agency's training efforts in deescalation, implicit bias, and duty to intervene, including overtime to participate in training programs and support for training officers to attend nationally certified train-the-trainer programs in these topic areas.

The LAPD Training Bureau will use the grant award to update and upgrade the De-escalation and Critical Thinking course, combining it with virtual reality to better connect with more technologically savvy officers as well as create a more realistic and diverse training experience. The funds will provide the upgrade to the technology and the means to train a significant portion of field personnel in this new environment in a more immersive approach to training.

The Honorable Board of Police Commissioners

The grant allocates \$180,636 in sworn overtime to instruct the Virtual Reality Enhanced De-escalation and Tactical Decision-making course; \$9,040 for travel, \$8,324 for supplies, and \$52,000 to contract with a vendor to create and integrate custom virtual reality scenarios and avatars.

The LAPD was not able to include reimbursements for related costs for sworn overtime in support of this program at the time of application. After the grant is accepted by City Council and Mayor, the LAPD will submit a budget modification to the grantor requesting to reprogram a portion of the overtime hours to reflect eligible related cost reimbursements for the use of sworn overtime.

Dear Michel Moore,

On behalf of Attorney General Merrick B. For COPS Office and OVW funding the Award Offer also includes any Other Award Documents.

Please note that award requirements include not only the conditions and limitations set forth in the Award Offer, but also compliance with assurances and certifications that relate to conduct during the period of performance for the award. These requirements encompass financial, administrative, and programmatic matters, as well as other important matters (e.g., specific restrictions on use of funds). Therefore, all key staff should receive the award conditions, the assurances and certifications, and the application as approved by the COPS Office, so that they understand the award requirements. Information on all pertinent award requirements also must be provided to any subrecipient of the award.

Congratulations, and we look forward to working with you.

ROBERT CHAPMAN
Acting Director

Office for Civil Rights Notice for All Recipients

The Office for Civil Rights (OCR), Office of Justice Programs (OJP), U.S. Department of Justice (DOJ) has been delegated the responsibility for ensuring that recipients of federal financial assistance from the OJP, the Office of Community Oriented Policing Services (COPS), and the Office on Violence Against Women (OVW) are not engaged in discrimination prohibited by law. Several federal civil rights laws, such as Title VI of the Civil Rights Act of 1964 and Section 504 of

the Rehabilitation Act of 1973, require recipients of federal financial assistance to give assurances that they will comply with those laws. Taken together, these civil rights laws prohibit recipients of federal financial assistance from DOJ from discriminating in services and employment because of race, color, national origin, religion, disability, sex, and, for grants authorized under the Violence Against Women Act, sexual orientation and gender identity. Recipients are also prohibited from discriminating in services because of age. For a complete review of these civil rights laws and nondiscrimination requirements, in connection with DOJ awards, see <https://ojp.gov/funding/Explore/LegalOverview/CivilRightsRequirements.htm>.

Under the delegation of authority, the OCR investigates allegations of discrimination against recipients from individuals, entities, or groups. In addition, the OCR conducts limited compliance reviews and audits based on regulatory criteria. These reviews and audits permit the OCR to evaluate whether recipients of financial assistance from the Department are providing services in a nondiscriminatory manner to their service population or have employment practices that meet equal-opportunity standards.

If you are a recipient of grant awards under the Omnibus Crime Control and Safe Streets Act or the Juvenile Justice and Delinquency Prevention Act and your agency is part of a criminal justice system, there are two additional obligations that may apply in connection with the awards: (1) complying with the regulation relating to Equal Employment Opportunity Programs (EEOs); and (2) submitting findings of discrimination to OCR. For additional information regarding the EEO requirement, see 28 CFR Part 42, subpart E, and for additional information regarding requirements when there is an adverse finding, see 28 C.F.R. §§ 42.204(c), .205(c)(5).

The OCR is available to help you and your organization meet the civil rights requirements that are associated with DOJ grant funding. If you would like the OCR to assist you in fulfilling your organization's civil rights or nondiscrimination responsibilities as a recipient of federal financial assistance, please do not hesitate to contact the OCR at askOCR@ojp.usdoj.gov.

17

Recipient Integrity and Performance Matters: For awards over \$500,000, the recipient agrees to comply with the following requirements of 2 C.F.R. Part 200, Appendix XII to Part 200 – Award Term and Condition for Recipient Integrity and Performance Matters:

A. Reporting of Matters Related to Recipient Integrity and Performance

1. General Reporting Requirement

If the total value of your currently active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds \$10,000,000 for any period of time during the period of performance of this Federal award, then you as the recipient during that period of time must maintain the currency of information reported to the System for Award Management (SAM) that is made available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIS)) about civil, criminal, or administrative proceedings described in paragraph 2 of this award term and condition. This is a statutory requirement under section 872 of Public Law 110-417, as amended (41 U.S.C. 2313). As required by section 3010 of Public Law 111-212, all information posted in the designated integrity and performance system on or after April 15, 2011, except past performance reviews required for Federal procurement contracts, will be publicly available.

2. Proceedings About Which You Must Report

Submit the information required about each proceeding that:

a. Is in connection with the award or performance of a grant, cooperative agreement, or procurement contract from the Federal Government;

b. Reached its final disposition during the most recent five-year period; and

c. Is one of the following:

(1) A criminal proceeding that resulted in a conviction, as defined in paragraph 5 of this award term and condition;

(2) A civil proceeding that resulted in a finding of fault and liability and payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more;

(3) An administrative proceeding, as defined in paragraph 5. of this award term and condition, that resulted in a finding of fault and liability and your payment of either a monetary fine or penalty of \$5,000 or more or reimbursement, restitution, or damages in excess of \$100,000; or

(4) Any other criminal, civil, or administrative proceeding if:

(i) It could have led to an outcome described in paragraph 2.c.(1), (2), or (3) of this award term and condition;

(ii) It had a different disposition arrived at by consent or compromise with an acknowledgment of fault on your part; and

(iii) The requirement in this award term and condition to disclose information about the proceeding does not conflict with applicable laws and regulations.

3. Reporting Procedures

Enter in the SAM Entity Management area the information that SAM requires about each proceeding described in paragraph 2 of this award term and condition. You do not need to submit the information a second time under assistance awards that you received if you already provided the information through SAM because you were required to do so under Federal procurement contracts that you were awarded.

4. Reporting Frequency

During any period of time when you are subject to the requirement in paragraph 1 of this award term and condition, you must report proceedings information through SAM for the most recent five year period,

either to report new information about any proceeding(s) that you have not reported previously or affirm that there is no new information to report. Recipients that have Federal contract, grant, and cooperative agreement awards with a cumulative total value greater than \$10,000,000 must disclose semiannually any information about the criminal, civil, and administrative proceedings.

5. Definitions

For purposes of this award term and condition:

a. Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative proceedings, Civilian Board of Contract Appeals proceedings, and Armed Services Board of Contract Appeals proceedings). It does not include audits, site visits, corrective plans, or inspection of deliverables.

b. Conviction, for purposes of this award term and condition, means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of nolo contendere.

c. Total value of currently active grants, cooperative agreements, and procurement contracts includes—

The Privacy Act compliance review and the PRA clearance process may take several months to complete. 44 U.S.C. §§ 3501-3520 and 5 U.S.C. § 552a.

25

Supplementing, not Supplanting: State, local, and tribal government recipients must use award funds to supplement, and not supplant, state, local, or Bureau of Indian Affairs (BIA) funds that are already committed or otherwise would have been committed for award purposes (hiring, training, purchases, and/or activities) during the award period. In other words, state, local, and tribal government recipients may not use COPS Office funds to supplant (replace) state, local, or BIA funds that would have been dedicated to the COPS Office-funded item(s) in the absence of the COPS Office award. 34 U.S.C. § 10384(a).

26

Sole Source Justification: Recipients who have been awarded funding for the procurement of an item (or group of items) or service in excess of \$250,000 and who plan to seek approval for use of a noncompetitive procurement process must provide a written sole source justification to the COPS Office for approval prior to obligating, expending, or drawing down award funds for that item or service. 2 C.F.R. § 200.325(b)(2).

Only those recipients that can provide a reasonable justification for delays will be granted no-cost extensions. Proposal Abstract

Police officers today are being hired in an era where the use of technology in instruction is not just a centerpiece, but the foundation of much of that training. Being able to reach these officers in a manner that is impressive, immersive and impactful is becoming more difficult. While our most effective training is done through scenario-based teaching, there are still limitations from this teaching type, such as, locations, times of day and the appearance of those you are interacting with. Combined with the safety concerns that can come from scenario-based training, Virtual Reality is the next avenue that the Los Angeles Police Department (LAPD) wants to pursue.

The LAPD currently trains officers in a scenario-based De-Escalation and Critical thinking course. However, doing so with live scenarios at the police academy at the same time as the current training would be a significant improvement. https://justgrants.usdoj.gov/prweb/PRAuth/app/JGITS/_3yz6Bxxi_lPDeXtOT4XnAjzAXm/VeWw*/!TABTHREAD1?pyActivity=PrintWork&Prompt=false&PrintH... 3/26

time of day creates monotony in training. While this training is still impactful, the desire to train in a virtual environment to add new locations, times of day, and variety of subject interactions is seen as the way to improve and reach our younger generation of officers.

With funding from the Community Oriented Policing Services' FY 2022 Law Enforcement Agency De-Escalation Grants – Community Policing Development Solicitation, the LAPD is proposing updating and technologically upgrading the De-Escalation and Critical thinking course and run it with Virtual Reality being the center piece. This change to the course will better connect with more technologically savvy officers as well as create a more realistic and diverse training experience.

1. Officers will learn to master the PATROL technique: Plan, Assess, Time, Re-Deployment, Other Resources, Lines of communication.
2. Apply this technique to numerous live and virtual reality scenario to reinforce the tools for de-escalation in a diverse training environment
3. Test on the concepts to ensure it translates to proficiency

The funds will provide the upgrade to the technology and the means to train a significant portion of field personnel in this new environment in a more immersive approach to training.

Explanation of Need for Financial Assistance

All applicants are required to explain their inability to address the need for this award without federal assistance. Please do so in the space below.

Due to limited City budget, there is no funding available to integrate virtual reality technology (VR) into a de-escalation and critical thinking training course. Integrating VR will contribute to LAPD's broader training efforts in de-escalation, implicit bias, and duty to intervene. Due to recent budget limitations for technology and training, this proposed program will not be implemented without grant assistance.

Duplication of Funding

Instructions: Applicants are required to disclose whether they have pending applications for federally funded assistance or active federal awards that support the same or similar activities or services for which funding is being requested under this application. Be advised that as a general rule, COPS Office funding may not be used for the same item or service funded through another funding source. However, leveraging multiple funding sources in a complementary manner to implement comprehensive programs or projects is encouraged and is not seen as inappropriate. To aid the COPS Office in the prevention of awarding potentially duplicative funding, please indicate whether your agency has a pending application or an active award with any other federal funding source (e.g., direct federal funding or indirect federal funding through state sub-awarded federal funds) which supports the same or similar activities or services as being proposed in this COPS Office application.

Do you have any current, active non-COPS Office award with any other federal funding source (e.g., direct federal funding or indirect federal funding through state subawarded federal funds) that supports the same or similar activities or services as being proposed in this COPS Office application?

No

If Yes, for each potentially duplicative non-COPS Office award, provide the following detailed information: name of federal awarding agency, or state agency for subawarded federal funding; award number; program name; award start and end dates; award amount; and description of how this project differs from the application for COPS office funding.

Do you have any pending non-COPS Office grant applications with any other federal funding source (e.g., direct federal funding or indirect federal funding through state subawarded federal funds) that support the same or similar activities or services as being proposed in this COPS Office application?

No

If Yes, for each potentially duplicative non-COPS Office grant application, provide the following detailed information: application number (if known); program name; project length; total requested amount; items requested; and describe how this project differs from the application for COPS Office funding.

Certification of Review of 28 CFR Part 23/Criminal Intelligence

REVIEWS AND CERTIFICATIONS Certifications of Review of 28 C.F.R Part 23/Criminal Intelligence Systems: If your agency is receiving COPS Office funding for equipment or technology that will be used to operate an interjurisdictional criminal intelligence system that receives, stores, analyzes, exchanges, or disseminates data regarding ongoing criminal activities, you must agree to comply with the operating principles at 28 C.F.R Part 23. If you are simply using COPS Office funds to operate a single agency database (or other unrelated forms of technology) and will not share criminal intelligence data with other jurisdictions, 28 C.F.R. Part 23 does not apply to this award.

Please check one of the following, as applicable to your agency's intended use of this award.

No, my agency will not use these COPS Office funds (If awarded) to operate an interjurisdictional criminal intelligence system.

Problem Identification and Project Description

Will De-Escalation Training be implemented in the proposed initiative?

Yes

Will Implicit Bias Training be implemented in the proposed initiative?

Yes

Will Duty to Intervene Techniques Training be implemented in the proposed initiative?

Yes

Describe your agency's overall philosophy towards your selected training topics and why it is important that officers are equipped with this knowledge and skill.(max 500 words)

The LAPD is guided by the overarching principle of reverence for human life in all investigative, enforcement, and other contacts between officers and members of the public. As such, the Department strives to create a framework that clearly and thoroughly conveys the training and practices associated with reverence for human life. Tactical De-escalation involves the use of techniques to reduce the intensity of an encounter

with a suspect and enable an officer to have additional options to gain voluntary compliance or mitigate the need to use a higher level of force while maintaining control of the situation. De-escalation, in addition to Command and Control, is a center piece of the Department's approach to use of force training.

The LAPD utilizes the acronym PATROL (Planning, Assessment, Time, Redeployment and/or Containment, Other Resources, and Lines of Communication) when training on de-escalation techniques. This training concept is infused into all Department training courses.

Planning: Officers should attempt to arrive at a scene, based upon initial information, with a plan in mind. The dynamic nature of most incidents will require tactical plans to be flexible, and officers need to adapt their plan(s) as additional information or factors become known.

Assessment: Officers are expected to continually evaluate and assess their tactical situation as circumstances change or additional information is received, to identify possible solutions, de-escalation techniques, or identify what, if any force option(s) are needed.

Time: Time is an essential element of de-escalation as it allows officers the opportunity to communicate with the suspect, refine tactical plans, call for additional resources or disengage. Officers are encouraged to, if appropriate, slow down, find cover and identify options to handle a tactical situation without force.

Re-Deployment (or Containment): Move to a new location, find cover, provide separation from volatile parties. This offers officers the benefit of time and distance while continuing to maintain control of the situation. This may also provide an opportunity to reassess, communicate, request additional resources, or deploy other tactics to reduce the likelihood of injury to both the public and officers while also mitigating any potential ongoing threats.

Redeployment, however, should not enable a subject to gain a tactical advantage.

Other Resources: Requesting additional resources can provide officers with specialized units (eg LAPD Mental Evaluation Unit), partners/outside entities and tools to help control and contain an incident.

Lines of Communications: Maintaining open lines of communication between officers and communicating effectively with a suspect are critically important when managing a tense or potentially dangerous encounter and increase the effectiveness of coordinated actions. The officers are prompted to use effective communication skills, active listening, and know that another officer may be better at talking with an agitated party.

The proposed training course will run officers through different types of scenarios with differing amounts of time and type of challenges. The VR modules will present numerous iterations of incidents with different times of day, locations, and individuals to consistently reinforce the PATROL technique. This variety will better illustrate and reinforce the importance of this de-escalation technique.

Please describe how this De-escalation Training project will fulfil a specific public safety need. (max 250 words)

The LAPD currently trains officers in a scenario-based De-Escalation and Critical thinking course but doing so with live scenarios at the police academy at the same time of day creates monotony in training. While this training is still impactful, the desire to train in a virtual environment to add new locations, times of day, and variety of subject interactions is seen as the way to improve and reach our younger generation of officers.

The LAPD is proposing to update the training and run it with Virtual Reality being a center piece. This change to the course will better connect with more technologically savvy officers as well as create a more realistic diverse training experience.

Current scenario-based de-escalation courses are situated in accessible locations and do not involve "unsafe places" such as roof tops or middle of the street-type locations. These types of radio calls are difficult to recreate - from appearance, to injuries to locations. Practical mental health-related scenarios cannot be created with having people on building edges, or subjects committing self-harm. With the VR integration, the proposed training course will allow the use of these inaccessible locations and allow officers to encounter numerous situations in one day. Scenarios with self-harm and other weapon system challenges are alleviated and can be run quickly. These scenarios will provide officers with multiple repetitions to hone their skill but also provide many examples they can reference when responding to calls in the field.

Please describe the major activities of your training project and how the project will establish or enhance de-escalation efforts of your agency if funded. (max 250 words)

The major activities will be done in three phases:

Planning: Course writers/instructors will meet with the VR vendor to develop and test scenarios, new environments, and avatar skins. Will submit curriculum for POST certification.

Implementation: The course will be nine hours long, training 30 students per delivery. The course starts with a test to determine the students' understanding of use of force, de-escalation and state law. Each group of students will immediately go into live scenarios to demonstrate their ability. Following their opening scenarios, students will receive classroom instruction to go over the fundamentals of PATROL, use of force, duty to intervene, and rendering aid. Next, the rest of the course will either be live scenarios or VR scenarios. The VR classroom allows officers to move normally in a virtual environment.

Evaluation: Upon completion of the course, a test evaluating the understanding of use-of-force, state law and de-escalation is administered to evaluate the students' retention and the effectiveness of the class. Students will have their risk management reports reviewed before and after training to determine if the course was effective at reducing risk factors such as multiple uses of force which can show a possible risk pattern.

This project will modify and enhance existing courses to include diverse locations, avatars and real-life environments to provide scenario training. Current courses like Law Enforcement Training Application Course, Mental Health Intervention Training, Extensive Retraining for officers following categorical uses of force, and Supervisor School would greatly benefit from a robust real-life scenario environment.

Describe each training curriculum your agency intends to implement (i.e., de-escalation, implicit bias, and duty to intervene techniques) and identify the course titles, their authors/developers, the planned instructors, and any vendors that may be contracted with federal funds for delivery. (max 500 words)

Course Title: Virtual Reality Enhanced De-Escalation and Tactical Decision Making

Developed by LAPD - Sgt. Robert Quiroz, Sgt. Andrew Cullen -- and V-Armed Inc.

Contractor: V-Armed Inc.

Instructors: Sgt. Quiroz, Sgt. Cullen and Metropolitan Division Training Cadre

Goal: To teach students how to better integrate tactical de-escalation techniques, less lethal devices, strategic communication techniques, and command and control tactics to preserve human life, reduce the intensity of force encounters with violent suspects, and mitigate the need for a higher

command and control tactics to preserve human life, reduce the intensity of tense encounters with violent suspects, and mitigate the need for a higher level of force.

Objective: Performance Objectives:

1. By the conclusion of the training, students will understand how the application of this training is in keeping with our Department's UOF policy, philosophy and tactical planning.
2. The student will demonstrate an understanding of how our Department's guiding principle of Reverence for Human Life is the moral and ethical foundation of de-escalation, tactics, reasonable force, and officer safety and duty to intervene.
3. Students will demonstrate an understanding and articulation of the Use of Force Policy regarding less lethal options as outlined in the most current Tactical Directives for Taser, OC Spray, Bean Bag, 40 mm, and Baton
4. Students will recognize force options and the amount of proportional force peace officers may use based on the subject's resistance
5. Students will demonstrate the importance of effective tactical communication before, during, and after using force

Modes of Learning: Initial assessment test for student understanding. Then the course will entail classroom instruction of theory and laws/policies followed by live and virtual reality scenario rotations to provide practical application of de-escalation techniques and reinforcement of command-and-control principles.

Please describe the final deliverables of the training project and how they contribute to the solicitation goals and requirements (max 250 words)

At the end of the performance period, the LAPD will have the following deliverables:

- a. A course curriculum for a de-escalation training with VR integrated into the course.
- b. The proposed project is expected to train 390 officers utilize PATROL, maximize their time, distance and cover and illustrate the importance of planning. By giving officers the skills from PATROL it will provide tools to safely resolve numerous volatile situations, while also giving a framework to handle actual radio calls with realistic scenarios.
- c. There will be a course evaluation as the students will be tested for knowledge before and after the training to obtain a baseline and see what was learned by the student.
- d. There will also be a project report assessing the plan, lessons learned, best practices and comparison of VR versus only Practical course effectiveness will be completed.

Describe any other areas of organizational improvement your agency intends to implement to complement the training efforts proposed in your application. Examples include roll call videos and/or toolkits, policy changes, data collection and analysis, supervisory oversight, and incident review. (max 250 words)

This course modification will include a virtual reality deliverable. New avatars of various demographics and new environments will be built to ensure that the course has a diverse reach and presents different challenges depending on the location.

Testing of knowledge will be given pre and post class to verify if course goals are met and tested again 6+ months later to see if knowledge is retained. All VR scenarios can be debriefed and replayed with officers to study effective strategies. Finally, live action scenarios will be debriefed similarly to current practices to discuss learning opportunities.

This will be the Department's first implementation of virtual reality training focusing on de-escalation. With the resources provided from this grant, new environments and scenarios will assist in modifying and enhancing courses to include diverse locations, avatars and real-life environments to provide scenario training. Current courses like Law Enforcement Training Application Course, Mental Health Intervention Training, Extensive Retraining for officers following categorical uses of force, Supervisor School and any other course or instruction would greatly benefit from a robust real-life scenario environment.

How will the proposed activities assist your agency in implementing or institutionalizing community policing? (max 250 words)

Current scenario testing is not conducted in the community, but on a training site. A current challenge alleviated by utilizing VR technology scenarios will be the ability to recreate actual neighborhoods in the city where diverse groups will be represented for each scenario. This type of training moves from "training" scenarios to immersive real-life style scenarios. By being in virtual environments, a fuller and more complete scenario is created where following a custody, officers can then explain to community members what just occurred and why officers had to take a person into custody. This not only provides training on de-escalation but also offers transparency and open dialogue with the community.

With the FY 2022 COPS Community Policing Development - Law Enforcement Agency De-Escalation Grants, the Los Angeles Police Department (LAPD or Department) is proposing to implement the "Using Virtual Reality to Enhance De-escalation and Tactical Decision Making" by integrating the use of virtual reality technology (VR) into a de-escalation and critical thinking training course. The course will utilize VR scenarios to present officers with challenging situations, exercising the need to employ de-escalation techniques to resolve encounters with minimum amount of force, if any. Integrating VR will contribute to LAPD's broader training efforts in de-escalation, implicit bias, and duty to intervene. The grant funds will support the planning, creation, and implementation of the course, providing officers with tools, techniques, and exercises to fine tune their skills in interacting with individuals with mental illness and dangerous suspects.

Project Reach and Impact

How many officers will be impacted by the proposed training project that otherwise would not have been because of this award (e.g., number of officers trained, etc.)?

390

Identify any current governmental, community, or agency initiatives that complement or will be coordinated with the proposed activities. (max 250 words)

The LAPD plans to enhance all its training to include VR technology to provide more realistic scenarios. This course's technological improvements will be added into the Department's current Mental Health Intervention Training. VR technology will also be implemented in several courses such as the Law Enforcement Training Application Course, Extensive Retraining, Supervisor School Academy, FOS qualification, Communication Remediation for the academy, Crisis Communication, Search Warrant Service, and Mobile Field Force.

What specific outcomes does your agency expect to accomplish with this funding and how will the project team track or measure them? (e.g. What data

What specific outcomes does your agency expect to accomplish with this funding and how will the project team track or measure them? (e.g., what data will you gather in order to assist with evaluating the effectiveness of the program? Why did you choose that data?) (max 250 words)

The LAPD will track the number of training sessions conducted throughout the grant period and report on the number of participants for each session. It will also collect information on the number of participants who completed the training and the feedback received regarding the training.

A pre- and post-test will be given analyzing the principles of the Department use of force policy, de-escalation and state law requirements. This test will be sent out (6+) months later to test for retention of knowledge. Students are expected to retain information learned, be able to apply the techniques more effectively and identify situations where the principles of PATROL are beneficial and to create a culture where applying de-escalation techniques is ..

Please describe how these efforts will be sustained once the award ends. (max 250 words)

While overtime allotment allows for a quicker implementation of the course, once the course is developed, it will be included in the Department's standard in-service training where the training cadre will be able to continue implementation during work hours. Since training under this project is limited to 390 patrol officers, the goal is to continue conducting training until all officers have received the training. After the grant ends, the LAPD will continue to use the technological enhancements to its virtual training environment and will seek funding from the City budget or the Los Angeles Police Foundation to further add on enhancements that will be needed in the future.

Management and Implementation

Describe the overall management and implementation plan for the project including identification of any key community or other stakeholder partnerships (community groups, private and/or public agencies) that will play a role in the implementation of this project. For example, how will you utilize any partners or agency staff and exercise oversight over the project team. Note: A timeline of project deliverables, activities, and milestones will need to be uploaded in the "Additional Application Components" section. (max 250 words)

The LAPD will serve as the prime recipient and will provide fiscal and administrative oversight over the grant program. The LAPD Grants Section consists of a Grants Manager and six Grants Analysts to oversee and report on over 30 active grants. A grants analyst will be assigned to the FY 2022 Community Policing Development Grant Program to manage the administrative aspects of the grant including preparing and submitting financial and progress reports and ensuring that all grant expenditures are in compliance with both the City and Department of Justice financial policies and guidelines.

The LAPD offers resources such as a fully equipped training facility, an extensive professional network, and personnel that have the blend of law enforcement, training experience, and project management skills necessary to get the project off the ground quickly and effectively. The Training Bureau in partnership with Metro Division's Training Cadre will develop and implement the training course and track performance measures of the grant program.

The Department's Virtual Reality Vendor V-Armed will work with Training Bureau in creating new environments, motion capture and avatars.

Community groups within our Community Safety Partnership sites will be invited to attend the training and run through the same scenarios live and in a virtual environment.

Please identify key project staff and their experience as well as the agency capacity to carry out the project (max 250 words).

Sgt. Andrew Cullen is assigned to Training Bureau and is responsible for training notices, bulletins, policy and implementation of new training. He manages the application of VR training into Training Division's courses. He will be developing the Virtual Reality Training with V-Armed.

Sgt. Robert Quiroz is assigned to Metropolitan Division as the Officer in Charge of the Training Cadre that provides essential in-service training to the department. He currently supervises 17 officers and trains 30-60 officers a day 4 days a week. His staff oversees the current non- Virtual Reality course: De-Escalation and Tactical Decision Making. His team trains thousands of officers per year and has developed multiple courses for Department Wide training, Mobile Field Force, and Multi-Assault Counter Terrorism Action Capabilities (MACTAC). For this project, he will be involved in the curriculum development and training.

V-Armed is a virtual reality technology company with law enforcement experience including development of multiple VR scenarios, hardware, software tools and performance of training sessions for the New York Police Department, Seattle-Area Police Departments, Federal Protective Service in Washington DC, Baton Rouge. V-Armed works with Department of Homeland Security/Federal Emergency Management Agency in delivering VR training for virtual reality active shooter training. V-Armed can customize as many locations, scenarios, and adaptations where clients can get more sophisticated

How do you plan to inform and engage members of your organization and the community regarding this project? (max 250 words)

The LAPD has one of the best training programs in the nation and serves as a best-practice for other police agencies. Training is an important part of LAPD, with required training throughout the year. LAPD will highlight this important new training via local media and through the Community Safety Partnership Bureau to facilitate participation of community members.

Indirect Costs**Instructions**

Indirect costs are allowed only if: a) the applicant has a current, federally approved indirect cost rate; or b) the applicant is eligible to use and elects to use the "de minimis" indirect cost rate described in 2 C.F.R. 200.414(f). (See paragraph D.1.b. in Appendix VII to Part 200—States and Local Government and Indian Tribe Indirect Cost Proposals for a description of entities that may not elect to use the "de minimis" rate.) An applicant with a current, federally approved indirect cost rate must attach a copy of the rate approval, (a fully-executed, negotiated agreement). If the applicant does not have an approved rate, one can be requested by contacting the applicant's cognizant Federal agency, which will review all documentation and approve a rate for the applicant organization, or if the applicant's accounting system permits, costs may be allocated in the direct costs categories. (Applicant Indian tribal governments, in particular, should review Appendix VII to Part 200—States and Local Government and Indian Tribe Indirect Cost Proposals regarding submission and documentation of indirect cost proposals.) All requested information must be included in the budget detail worksheet and budget narrative. In order to use the "de minimis" indirect rate an applicant would need to attach written documentation to the application that advises DOJ of both the applicant's eligibility (to use the "de minimis" rate) and its election. If the applicant elects the de minimis method, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. In addition, if this method is chosen then it must be used consistently for all federal awards until such time as the applicant entity chooses to negotiate a federally approved indirect cost rate.
