Comments for Public Posting: How is it that city council is so incapable of working ? How is it that nithya who is so delusional and high on don't know what rule over the rest of the members to not pass the ordinance and open it up for changes ? What have you all done ? What have you done ? Basically you guys voted to end this in January and then backtracked this , now with an open end date and potentially moving this further beyond February 2023. That's is 3 fuckin years of free housing . Our property taxes have risen, expenses risen. How are you taking our properties without any repercussions. You have failed the system: Nithya you are the worst the universe can ask for - bonin was one of them but you are a horrible human being. The conspiracy that the DSAs percolate is appalling. We demand justice .
