Council File No: 22-1489

Comments for Public Posting: I am very much against the expansion of private jet and helicopter traffic in and out of Van Nuys Airport (VNY). Calabasas in particular will be severely impacted by these proposed changes because flight paths will be right over our neighborhood and at much lower altitudes. I urge the City Council to not approve an increase in the volume of air traffic coming out of Van Nuys Airport (VNY)!
