**Comments for Public Posting:** These planes are flying over my house day and night and are so loud interrupting what should be my peaceful place to be. I also worry about a plane crashing. This airport SHOULD NOT BE EXPANDED!!!

**Comments for Public Posting:** I support this motion. This is a step in the right direction. There needs to be transparency and community involvement. The increase in air traffic, noise pollution and environmental impact to the surrounding communities is very detrimental. There is no research how this is affecting the surrounding communities and how that impacts the quality of life of the residents and wildlife. The private jets sitting idling near homes is very upsetting. Children having to play and smelling the fumes from idling jets. Where's the outrage in that? Are we that far removed in special interest that we forget how many elementary schools are within a short distance of the vny airport. This airport use to be small. How much money is being gained by all the increase ans who is profiting. I sure have not seen any of it go to the surrounding communities to improve our neighborhoods. Its excessive and with the closure of the SM airport it will only get worse for our communities. The great thing about that is that they'll get a park while we get more noise pollution and air pollution. We live in a valley and don't have a sea breeze like some other airports. How is this okay to plan for expansion without any research or community input?

**Comments for Public Posting:** I am in support of Motion 22-1489 and I ask the committee to waive ASAP and return it to council for a vote to pass. Additionally, I want city council to pass a section 245 (c) Effect to Veto on the Bonseph Helinet contract. Thank you
