

MOTION

I MOVE LADWP respond within 15 days to the Energy and Environment Committee with a report that includes the following:

- An overview of the Scattergood Generating Station Green Hydrogen project;
- Potential alternatives to the project including fuel cells, multi-day demand response programs, long-duration energy storage, and others;
- The public health and safety impacts or risks of producing, transporting, storing, and combusting green hydrogen, including emissions of NOx and other pollutants;
- The public engagement process for the project conducted to date and the planned public engagement process in the future, including with Neighborhood Councils;
- The role of green hydrogen at large in the City's transition to 100% renewable energy;
- An assessment of the commercial readiness of technology to produce, store, and transport green hydrogen at scale; and
- The water needs of producing green hydrogen and the sources for that water, including timing of that water supply.
