

## Communication from Public

**Name:** Christophe LaBelle

**Date Submitted:** 01/16/2023 11:47 AM

**Council File No:** 22-1566

**Comments for Public Posting:** I support this motion, which will further enable Los Angeles to act on climate change in a comprehensive and just manner. As we continue to address the City's contributions to climate change, we must also better account for and mitigate climate-related impacts on residents, businesses and infrastructure. These impacts have been inequitably borne by low-income communities of color, due to structural racism that is embedded in policies and systems like planning codes. Thank you to Councilmembers Yaroslavsky and Krekorian for bringing this motion to the City Council. I look forward to its consideration by Council committees and the full body, as part of their approval and direction to City staff for research and a report-back in the near future.
