

WHITE-MOOERS HOUSE

2650 S. Halldale Avenue

CHC-2022-7266-HCM

ENV-2022-7267-CE

FINDINGS

- White-Mooers House “embodies the distinctive characteristics of a style, type, period, or method of construction” as an intact example of a single-family residence designed in the Transitional Craftsman architectural style.

DISCUSSION OF FINDINGS

The White-Mooers House meets one of the Historic-Cultural Monument criteria: it “embodies the distinctive characteristics of a style, type, period, or method of construction” as an intact example of a single-family residence designed in the Transitional Craftsman architectural style.

While Craftsman style features began to creep into the architectural vocabulary as early as 1895, the true expressions of the style were not constructed until 1905. With some Swiss-chalet influences, the subject property represents an early example of the Craftsman architectural style that was in the process of shifting away from the architecture of the late Victorian era. The property’s broad front porch, clapboard cladding, knee braces, and wide eaves are all hallmarks of Craftsman residential architecture. Other distinguishing features include the plate rail in the dining room, built-in buffet, wainscoting, and original wood flooring.

Although the subject property has experienced numerous interior alterations, the exterior has only experienced minor changes and retains sufficient integrity of location, design, setting, materials, workmanship, feeling, and association to convey its significance.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (“CEQA”) FINDINGS

State of California CEQA Guidelines, Article 19, Section 15308, Class 8 “*consists of actions taken by regulatory agencies, as authorized by state or local ordinance, to assure the maintenance, restoration, enhancement, or protection of the environment where the regulatory process involves procedures for protection of the environment.*”

State of California CEQA Guidelines Article 19, Section 15331, Class 31 “*consists of projects limited to maintenance, repair, stabilization, rehabilitation, restoration, preservation, conservation or reconstruction of historical resources in a manner consistent with the Secretary of the Interior’s Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic buildings.*”

The designation of the White-Mooers House as an Historic-Cultural Monument in accordance with Chapter 9, Article 1, of the City of Los Angeles Administrative Code (“LAAC”) will ensure that future construction activities involving the subject property are regulated in accordance with Section 22.171.14 of the LAAC. The purpose of the designation is to prevent significant impacts to an Historic-Cultural Monument through the application of the standards set forth in the LAAC.

Without the regulation imposed by way of the pending designation, the historic significance and integrity of the subject property could be lost through incompatible alterations to the interior and new construction not protected under the South Los Angeles Community Plan Character Residential Area. The Secretary of the Interior's Standards for Rehabilitation are expressly incorporated into the LAAC and provide standards concerning the historically appropriate construction activities which will ensure the continued preservation of the subject property.

The City of Los Angeles has determined based on the whole of the administrative record, that substantial evidence supports that the Project is exempt from CEQA pursuant to CEQA Guidelines Section Article 19, Section 15308, Class 8 and Class 31, and none of the exceptions to a categorical exemption pursuant to CEQA Guidelines Section 15300.2 applies. The project was found to be exempt based on the following:

The use of Categorical Exemption Class 8 in connection with the proposed designation is consistent with the goals of maintaining, restoring, enhancing, and protecting the environment through the imposition of regulations designed to prevent the degradation of Historic-Cultural Monuments.

The use of Categorical Exemption Class 31 in connection with the proposed designation is consistent with the goals relating to the preservation, rehabilitation, restoration and reconstruction of historic buildings and sites in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties.

Categorical Exemption ENV-2022-7267-CE was prepared on December 12, 2022.
