**Comments for Public Posting:** I oppose street spot widening because this city needs more variable forms of transportation other than cars! We need safe, protected bike lanes, bus lanes, and room for pedestrians and greenery, NOT room for more cars. Our roads are already multiple lanes wide - adding more/wider lanes won't solve any of our congestion problems! It encourages cars to drive at unsafe speeds and not look for pedestrians or bikers, increasing our already too high death and injury rates. PLEASE start prioritizing healthier, more green cities! We are begging you!!!
